

## Publish/Unpublish Course Contents

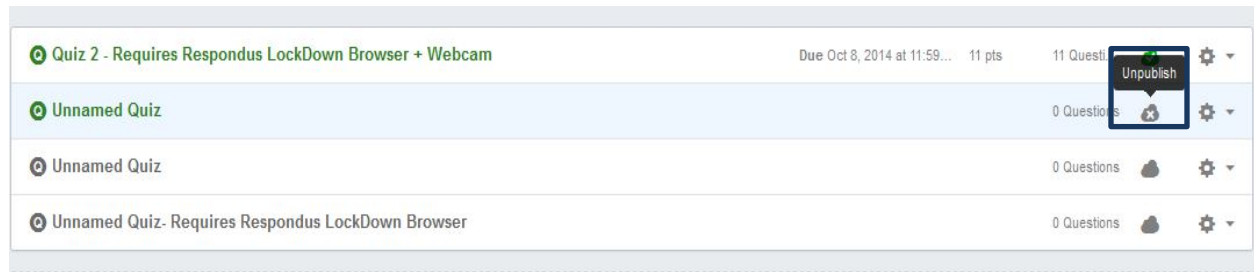

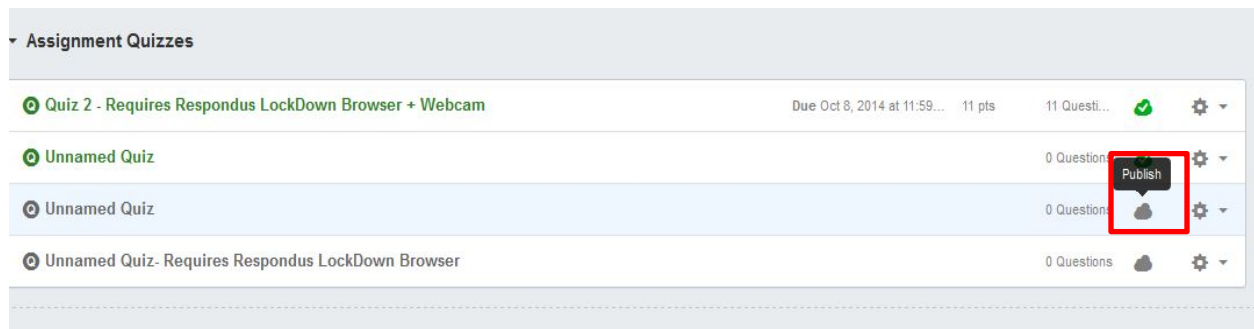

---

This document illustrates how to publish/unpublish course content.

### Publish/Unpublish Quiz

Go to the quiz section of your course and select the cloud on right of the quiz.

The cloud is green when quiz is published. Select on a grey cloud to publish the quiz. To unpublish it, click on the cloud again.

## Publish/Unpublish Assignments

Go to the assignments section of your course and select the cloud on right of the assignment.

The cloud is green when assignment is published. Select on a grey cloud to publish the assignment. To unpublish it, click on the cloud again.

The image displays two screenshots of the 'Assignments' section in eCAMPUS. Both screenshots show a list of assignments with columns for name, module, points, status, and actions.

**Top Screenshot:** The 'Roll Call Attendance' assignment is selected. It has 100 points and a grey cloud icon. A red box highlights the cloud icon, and a tooltip labeled 'Publish' is visible over it.

Assignment Name	Module	Points	Status	Action

## Publish/Unpublish a file

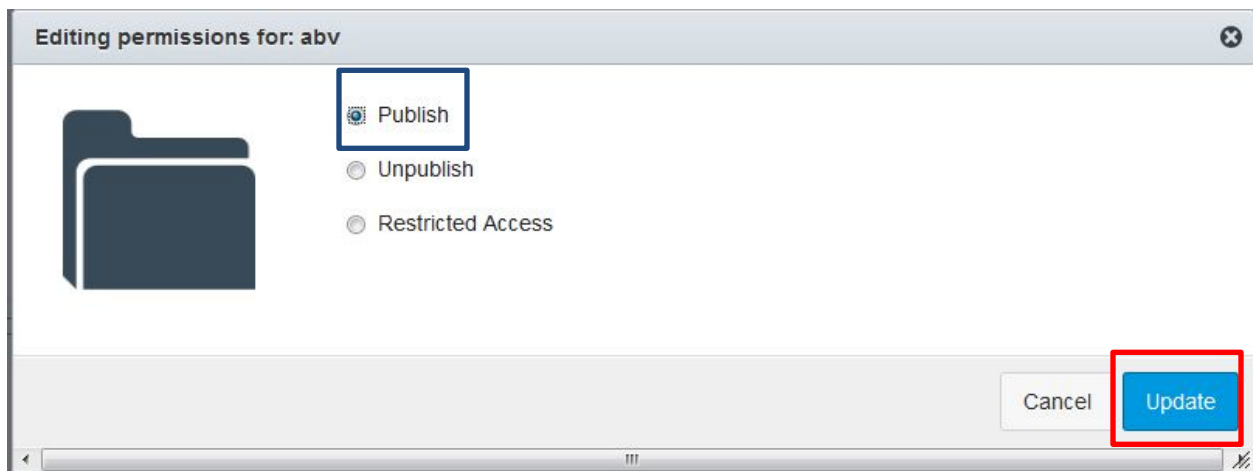

Go to the files section of your course and select the cloud on right of the page.

As in figure below, a new dialog box appears.

Select "Publish/Unpublish" in this section.

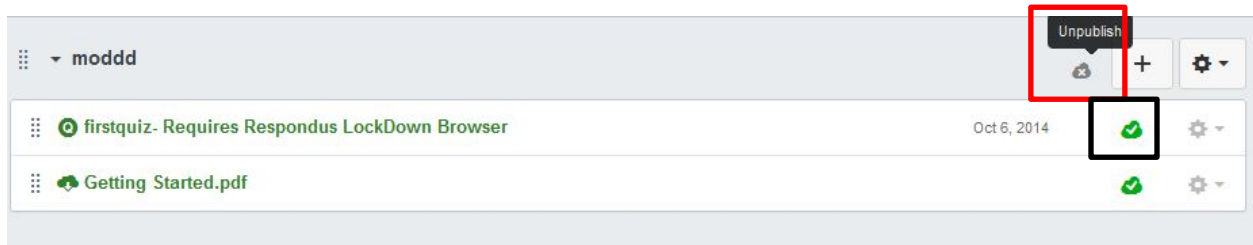

Once selected, click on "Update".

## Publish/Unpublish a module

Go to the modules section of your course. You can publish a module or its submodule.

Click on the cloud on right of module [highlighted by red box] or submodule [highlighted by blue box] in order to publish/unpublish it.

### Note:

You will not be able to un-publish content if there are already any submissions for the content (assignment etc.)
