

Turnitin Enabled Assignment Submissions – Student Guide

This document describes how to submit Turnitin enabled assignments and view the Turnitin similarity report for the submission. This tutorial is aimed at students.

Steps to be followed:

1. Login into Canvas and go to your course. The course homepage will open.
2. In Course Navigation, click the **Assignments** link.

3. In Assignments, you can view all the assignments in your course. Open the Assignment you would like to submit from the list of assignments by clicking on it. Once you are inside the assignment, you can see whether it is Turnitin enabled or not. (Highlighted with red rectangle).

Submit Assignment

Due Friday by 11:59pm Points 10 Submitting a file upload (Turnitin enabled)

Checking turnitin for student

February 20, 2019

- Click on the “Submit Assignment” button. This will open the submission page. Next, upload the file and check the box saying, “This assignment submission is my own, original work.” Then, click on the blue “Submit Assignment button.”

- Once the assignment has been submitted, you can view the Turnitin similarity report. To view the Turnitin similarity report, click on submission details in the assignment.

PracticeCourse_Anbukkarasu_1 > Assignments > Turnitin Test

6. Now click on the comment bubble that displays a percentage between zero and one hundred.

To digitally sign a PDF, you need to have a digital ID. If you don't have one, Acrobat can create a "self-signed" ID for you that is stored on your machine (typically) forever, allowing you to use it any time you need to sign a PDF.

What Exactly Is a Digital ID?

A digital ID contains information such as your name and email address, the name of the company that issued your digital ID, a serial number, and an expiration date. You usually only have one, like a driver's license, but you can have multiple for different signing circumstances. Essentially, it proves your identity to people that receive a document that you have signed digitally.

- Click in the area you wish to sign digitally.
- Step 1 (Creation of digital ID)
