**Course Description**

Macroeconomics is the study of the behavior of economic agents such as households, firms and governments, whose collective decisions determine how resources are allocated in a free market economy. The goal of the course is to teach you to "think like an economist," which will help you to understand the world around you. The course presents the economic theory such as opportunity cost, supply, demand, markets, international trade, gross national product, unemployment... nevertheless it will emphasize the application of these concepts to real world situations through in-class discussions of current events, videos, newspapers articles and interactive learning exercises. Those tools will be formulated to better understand and analyze the economic, political, social world surrounding us and to formulate policy implications.

Determination of economic aggregates such as total output, total employment, the price level and the rate of economic growth.

Notes: May be taken concurrently or prior to Econ 1B.

**Course Format:** in-person

## Required Texts/Readings

### Textbook

Lee Coppock, Dirk Mateer, Principles of Macroeconomics, 4th edition Ed. W.W. Norton.

### How to register for online assignments and e book:

Required online enrollment at WWNorton on Canvas → Modules → "REGISTRATION FOR DIGITAL RESOURCES", you start watching the video titled "How to Register for Digital Resources".

You register using the "How to use Inquizitive" link, or "Smartwork: graphing" link → click on "Purchase options" then "Ebook for Principles of Macroeconomics" at \$79.95. From there follow different steps until registration is completed.

Purchasing the ebook will give you access to the ebook (!) + Inquizitive + Smartwork bundle.

### What is Inquizitive?

Inquizitive adapts to your level of knowledge; it is a formative, adaptive learning tool that gives you personalized quiz questions on the topics you need the most help with. You can gain or lose points on each question, depending on how confident you judge yourself to be. Questions get harder as you answer more questions correctly, however harder questions are worth more points.

To complete Inquizitive, you must answer **at least 10 questions**.

You can gain or lose **up to 100 points** on each question, depending on how confident you judge yourself to be.

Each Inquizitive assignment has a Target Score and your grade will be based on how many points you earn.

Reach the Target Score (no matter how many questions it takes) and you will earn a grade of 100%.

You can leave the activity at any time, then come back later to complete it. Your progress is always automatically saved, but your grade will be modified only if you complete the assignment before the due date: you can continue to improve your score until the due date; past the due date and your grade will not change.

It will be due on the Sunday before the class covering the same chapter.

Canvas will drop your lowest score to calculate the Inquizitive average.

### What is Smartwork?

Smartwork is a weekly quiz. You will have ONE quiz per chapter (except chapter 3 where you will have two Smartwork assignments).

Before the due date you may attempt the assignment up to 2 times and your grade on the assignment is the highest score on any one attempt. No late assignments are accepted and any assignments that are "in-progress" are auto submitted at the due date.

Canvas will drop your lowest score to calculate the Smartwork average.
