The COE Curriculum Committee members reviewed new course proposals for ChAD 70 and ChAD 165. Toni Campbell and Maureen Smith from ChAD described the new proposed strand of classes for the students in ChAD to explore community-based organizations that provide services for children and adults. Several suggestions were made by Brent about the number of points, inclusion of a rubric and the presentation assignment format.

ChAD 70 and ChAD 165 were approved unanimously by the committee members present.

We discussed the new Minor in Science Education and discussed the impact on enrollment in the departments and the units counting towards the credential programs. We tabled the decision to approve this minor until all Credential program department Chairs review the proposal.

* On March 8th, 2013 the new Minor in Science Education was approved via email discussion after approval from the Chairs.
