EE180 Application Form

San Jose State University
Electrical Engineering Department

Undergraduate Research Student Only

Before completing this form, please read these instructions carefully

1. This form is only for BSEE students with good senior standing status. Students who want to enroll for EE180 must have a faculty mentor who is a full-time faculty member in the Electrical Engineering Department.

2. Students must download the EE180 course syllabus on the EE department website and discuss all the terms, conditions and requirements mentioned in the course syllabus with the faculty mentor.

3. Students must complete this form entirely (uncompleted form will not be processed), must have approval from the faculty mentor, and must attach the course syllabus.

4. Students should make copies of the application and the syllabus and keep them for future use. Please turn in the original application and the course syllabus to the EE Office at least one week before the Add deadline. The EE Office will provide the add code.

5. Please note that EE180 is a credit/no credit course. In order to receive credit, a grade of "C" or above is required.
