Using IPEVO Visualizer

These few features are very useful using the visualizer: **Select Camera, Zoom, Rotate, and Snapshot.**

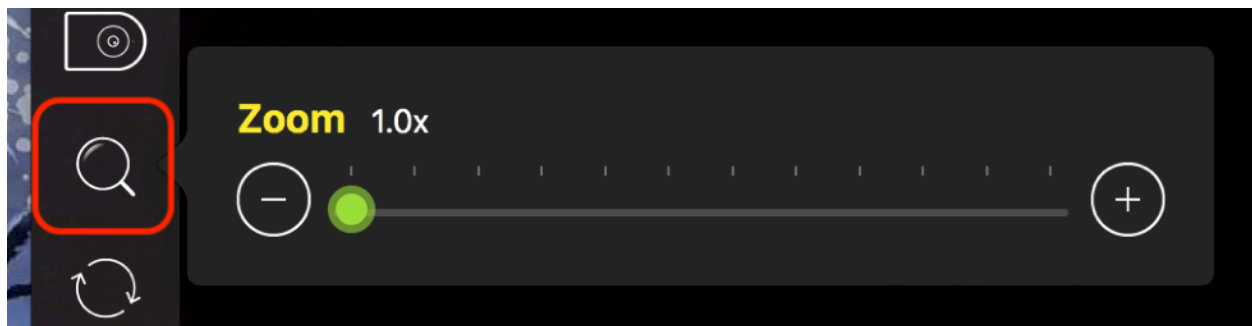

Select Camera:

- Using this feature can easily adjust Saturation, Contrast, Hue, etc.
- Use the drop down list to switch between cameras

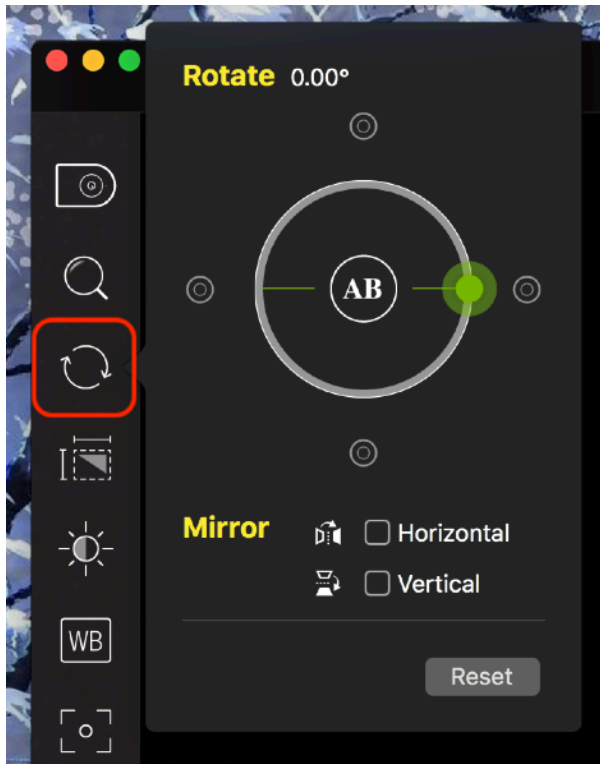

Zoom:

Drag the green dot to zoom in or out.

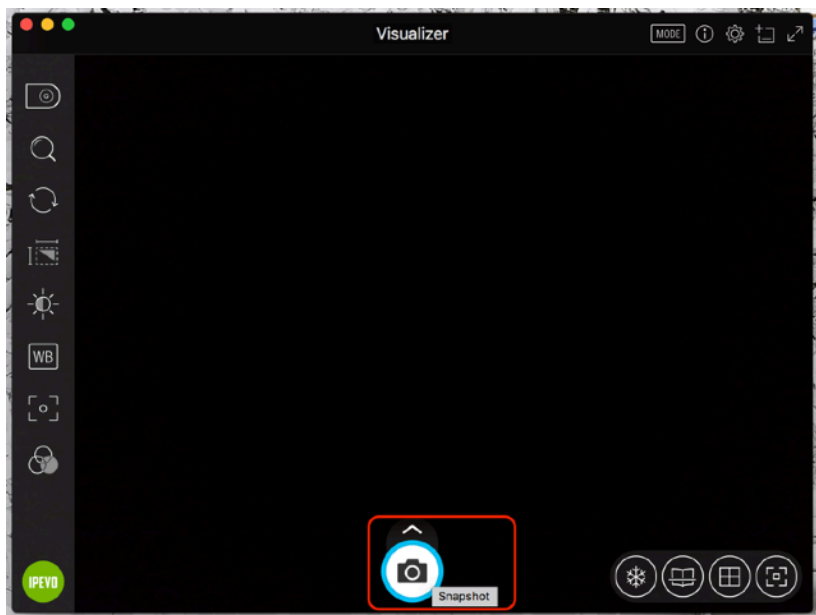

Rotate:

Using the rotate feature, you can easily rotate your camera without rotate the head

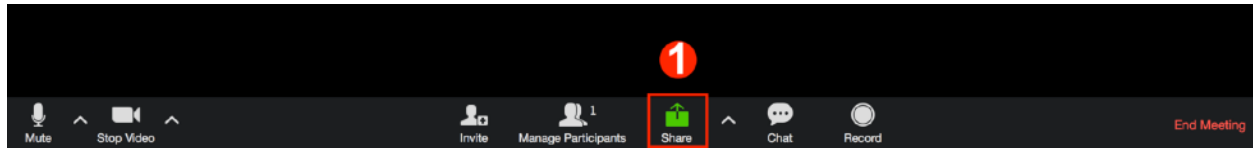

Snapshot:

Click on the Snapshot button and save the picture to the file you like to save.

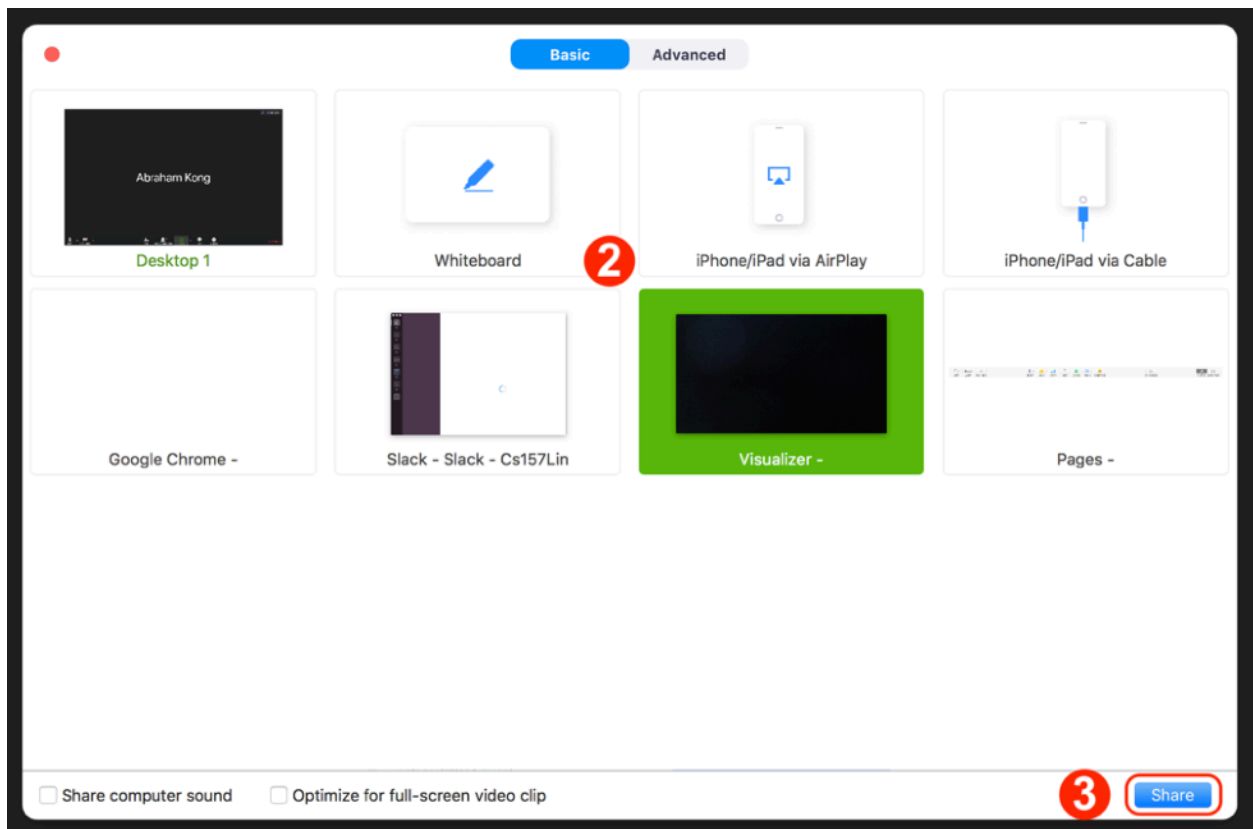

Use Camera in a Zoom Meeting

- Step 1: When the meeting starts, click on the “Share” button to share screen.

- Step 2: Choose the Visualizer window.
- Step 3: Click “share”.

- Step 4: Click on “stop share” to stop the share screen.
