Course Requirements and Assignments

Modules
The term is staged through four projects. Your assignments will focus on issues discussed in class, or your reflections responding to readings, documentaries, writing from the course, and community research. In all, the four major assignments will form the core of your research of an Issue in California.
- Project 1 – Literature Review- Project 1 is a literature review of resources related to the Topic in California. Once you have identified your writing and research subject in California, you will start selecting resources that support your interest in the Issue for one reason or another (it might be the purpose of the study and its findings, the context and/or population studied, the theoretical approach used in the study, etc.).
- Project 2—Historical Analysis- For Project 2 you will historically analyze your Topic in California. This essay will explain the evolution of the Topic in California through the history of the region.
- Project 3—Ethnographic Analysis- for Project 3 you will complete an ethnographic analysis. This essay will research regional and global differences—tracing the Topic in California between different cultures and societies.
- Project 4—Digital Short- For Project 4 you will pull from your previous three assignments and develop a scholarly argument around an issue in the state of California in the form of a Digital short. The Digital short should pull from your three (3) Formal assignments and your informal assignments as evidence. You should reflect on the progression of your research, and look forward to where this research might head next?
Universal Design of Learning (UDL)

As an alternative to the main essays, the UDL Portfolio will be utilized for those who fall behind and are unable to complete the primary course structure. The assignments point total do not equal the larger portfolio-based projects, but they are enough to help you earn an “C” if you do well with the other course components. UDL responses are due by the end of the term. The directions are set on each of the submission folders.

Digital short (Youtube)

Academic account, based on student email. You will develop a Digital short that will be posted on YouTube based on the final writing that are posted in your Archive. You are not required to make this public but doing so will earn you 10 extra credit points towards the final assignment. Your Digital short will be developed through the three critical papers. It will be a comprehensive project that communicates your research on this Issue to the audience that you desire.

Late work

All late work is accepted and will receive an automatic (-10 point) deduction prior to being graded.

- **Hard deadline**– Assignments posted with a due date have a hard deadline and must be submitted accordingly.
- **Soft deadline**– Within each units all assignments without a posted due date are due at the end of the module. For example, within Module 1 all assignments that do not have a posted deadline will not be considered late until the first essay from Module 1 is due.

Note: The purpose of this arrangement is to allow for the submission of late work, but to understand that there is a penalty for failing to meet the deadline. First, you will only receive this opportunity for late work if you
communicate in advance that you will be submitting late. Second, you will be able to utilize this small penalty, but large privilege to develop your own schedule for time management in relation to the structure I have provided.

**Feedback**

Each Project will have a Peer Review date. This is a firm date, if you wish to receive feedback from both myself and your peers prior to the submission of the final draft of each project, this is when you will submit your draft. This draft may be in the form of an Outline or Rough Draft. We will speak of both of these stages during Module 1.
- You must have an Outline/Rough Draft the day of the Peer Review. You also must complete 2 x 250 word responses to 2 peers projects
- In addition to feedback from 2 peers, if you submit the rough stage (Outline/Rough Draft) of the project, I will provide direct feedback.
- If you do not have a drafting stage prepared, you will forgo the feedback. You may still submit your work for partial credit. You may still visit the writing center for direct feedback, or visit me during office hours and I will answer a few questions regarding the assignment. But, you will not receive the same depth of feedback as will be provided during the peer review.

**Participation**

If you need to miss class take the follow steps and I will excuse your absence:
1. Email me in advance as to why you are missing class.
2. Explain how you will access the work on Canvas
3. Set a deadline for when you will complete the work
Failure to attend class sessions will impact your grade.
