Clean Water Program
City of Morgan Hill Internship Opportunity

Who: The City of Morgan Hill seeks a student intern to help with the City’s Clean Water Program. The intern must be interested in stormwater runoff and clean surface waters, enjoy working with people - especially kids, and be comfortable working outdoors in summer weather.

What: Internship primarily supports the City of Morgan Hill Clean Water Program which is guided by the provisions of the National Pollutant Discharge Elimination System (NPDES) Stormwater Permit. Intern will also provide support in other environmental programs (e.g., climate action, solid waste management, water conservation, and urban forestry). Primary projects may include:

- Support implementation of the public outreach program including design and distribution of outreach materials, posting to social media sites, outreach to community groups, and help with occasional evening/weekend public outreach events.
- Identify locations of creek outfalls using GPS unit to update City GIS Catchment Map.
- Inspect creeks for illegal dumping and pull water samples from suspect ponding.
- Database upkeep.
- Process forms for Private Sewer Lateral and Water Conservation Inspections at Property Sale. Answer questions from the public.
- Intern will be trained. No prior experience in water sampling, GIS/GPS, public outreach, etc., is required.
- Internship begins in August.
- $19/hour.
- Open until Filled.

Where: Morgan Hill City Hall.

When: Commitment of 10 to 16 hours per week. Hours are flexible based upon intern’s school schedule so long as they are completed Monday through Friday, 8am to 4pm. Intern should be open to working occasional weekends and occasional weekday evenings to aid with public outreach events.

How: Please send an email introducing yourself and explain why you are interested in this internship, with an attached resume. Email should be sent to:
