Associate, Sustainable Policy & Programs
Green Building and Energy Efficiency
Full Time Position

How would you like to be with a company involved in the sustainability and green building industry that is at the very beginning of a significant growth phase? A company that is willing and able to teach you everything you need to know to succeed? A company that is more concerned about you than about your job history or your experience? A company that wants to give you the training and the opportunity you’ve been looking for? With hard work and a willingness to learn, you will have the opportunity for exponential growth. This is a great opportunity to gain experience in the green building industry with a pathway for future advancement. Here are some of the qualifications of our ideal candidate:

- Enthusiastic in the area of sustainability, green building, energy efficiency, and climate change mitigation
- Friendly, positive, collaborative, with a customer-service focus
- Detail-oriented with a strong ability to multi-task
- Flexible to work with project schedules and timelines
- Ability to assume responsibility and to interface and communicate effectively with others
- Effective oral and written communication skills
- Ability to represent the company and project team in a professional manner
- Willingness to become a LEED AP and an ICC CALGreen Inspector
- Architecture, engineering, or environmental studies degree or equivalent combinations of technical training
- Familiarity with construction equipment and techniques, drawings and specifications, building materials, and required standards applicable to discipline.

We’re a rapidly growing green building and energy consulting firm in immediate need of a Full-time Associate, someone motivated by the challenge to expand both his or her technical skills in the support of a topflight consulting group. If you have experience in green building, decarbonization, energy efficiency, climate change or environmental consulting this could be the opportunity you’ve been waiting for. Our team is friendly, fun and results-oriented. We continuously encourage each other to learn and grow and maintain a robust in-house training program. Join our team of collaborative, and innovative professionals. Send your resume to awtemv@resumes2.zohorecruit.com.
Requirements:
- This is a full-time, non-exempt, project based position.
- Must be located in the US and willing to work in Pacific Standard Time
- Must have 1-2 years of experience in handling sustainability projects
- Educational background in Architecture, Engineering, Construction Management, Environmental or City Planning.

Working Conditions:
- Work remotely approximately 40 hours per week
- Must be able to Individually lift up to 25 pounds
- Attending virtual meetings
