

Environmental Studies 128
Spring 2016
Tuesday & Thursday 1:30-2:45 PM,
Dudley Moorhead Hall Rm.164

Patrick Ferraro
Phone: 408-293-1852
e-mail: ptferraro5@gmail.com

San José State University
College of Social Science
ENVS 128, Water Resources Management, Section 01, Fall, 2016

Course and Contact Information

Instructor: Patrick T. Ferraro
Office Location: Washington Square, Rm 115A
Telephone: (408) 293-1852
Email: ptferraro5@gmail.com
Office Hours: W 1:45 – 2:45 PM and by appointment
Class Days/Time: W 3:00 – 5:45 PM
Classroom: Clark Building, Rm 303
Prerequisites: ENVS 129 and STAT 095 or appropriate math course; or instructor consent

Faculty Web Page and MYSJSU Messaging

Course materials such as syllabus, handouts, notes, assignment instructions, etc. can be found on web site <https://sites.google.com/site/envs128fall16watermanagement/home> and on the Canvas learning management system course website at <http://sjsu.instructure.com>
You are responsible for regularly checking with the messaging system through MySJSU at <http://mysjsu.edu> or other communication systems as indicated by the instructor to learn any updates.

Course Description

Water uses and supplies; water resource measurement methods; hydrology; erosional processes; sediment production and transport particularly on Northern California coastal watershed; flood hazards and methods of control; groundwater and groundwater aquifers; water quality.

Learning Outcomes

Water resources management is a multi-disciplinary field encompassing:

Environmental Studies 128

Spring 2016

Tuesday & Thursday 1:30-2:45 PM,

Dudley Moorhead Hall Rm. 164

Patrick Ferraro

Phone: 408-293-1852

e-mail: ptferraro5@gmail.com

- urban vs. agricultural water supply
- water supply reliability
- urban and regional planning
- water quality for public health and the environment
- watershed management
- environmental restoration
- flood control
- wastewater treatment
- energy (and thus carbon emission) impacts of human engineered water systems
- anticipating and responding to climate change

Environmental Studies 128

Spring 2016

Tuesday & Thursday 1:30-2:45 PM,

Dudley Moorhead Hall Rm. 164

Patrick Ferraro

Phone: 408-293-1852

e-mail: ptferraro5@gmail.com

This course will give you exposure to both quantitative and qualitative aspects of the topic using a variety of teaching techniques including lectures, group discussion, problem sets, guest lectures, and a field trip. We will look at case studies within California, the US and internationally. We will also evaluate how climate change has already impacted water resources in some regions of the world and how it is expected to change California water management.

Course Learning Outcomes (CLO)

Upon successful completion of this course, students will be able to:

1. Calculate measurements of water quantity and quality through practice problems assigned throughout the semester
2. After becoming familiar with terminology used by engineers and water managers through reading assignments and class lectures and discussions, understand connection between water policy and measurements used to manage water resources.

Recommended Texts/Readings

Textbooks:

Cech, Thomas V. 2005. *Principles of Water Resources: History, Development, Management and Policy*, 3rd. John Wiley and Sons Inc., Hoboken, NJ.

Hardcover: 576 pages (August 24, 2009)

- * ISBN-10: 0470136316, ISBN-13: 978-0470136317

Water 4.0: The Past, Present, and Future of the World's Most Vital Resource by David Sedlak

Publisher: Yale University Press (January 28, 2014)

- ISBN-10: 030017649X, ISBN-13: 978-0300176490

Other Readings

This reading list will be supplemented throughout the semester with documents posted on Canvas and/or on the class web site: <https://sites.google.com/site/envs128fall16watermanagement/home>

Please check this web site and Canvas prior to each class and read attached documents. Lecture notes containing video and additional web links will be posted after each class meeting.

Class Schedule

Topic /Online reading assignments

1. August 24

Introductions/ Overview of Class

The Water Cycle (By NOAA)

Semester Case Study: Coyote Creek

South Bay Restoration/The Mouth of the Coyote:

California Colloquium on Water

Steve Ritchie, Executive Project Manager, South Bay Salt Pond Restoration Project

"The South Bay Salt Pond Restoration Project: The Wild Heart of Silicon Valley" In 2003, the State of California and the U.S. government, with substantial support from private foundations, purchased 15,100 acres of salt production ponds adjoining South San Francisco Bay from Cargill Corporation. These ponds represent an incredible opportunity for shoreline habitat restoration and public access in the San Francisco Bay Area. This is the largest habitat restoration project in the Western U.S. (<http://www.southbayrestoration.org/>) and it must be accomplished without increasing flood risk...

Course Requirements and Assignments

SJSU classes are designed such that in order to be successful, it is expected that students will spend a minimum of forty-five hours for each unit of credit (normally three hours per unit per week), including preparing for class, participating in course activities, completing assignments, and so on. More details about student workload can be found in University Policy S12-3 at <http://www.sjsu.edu/senate/docs/S12-3.pdf>.

Students are expected to have completed reading assignments prior to class. Lecture will be supplemented with audio-visual media. A portion of each class will be spent as interactive discussion between instructor and students. Experts may be invited to some of the classes to augment the instructor's expertise. Field trips will be scheduled as time permits.

With the multitude of topics and levels used to approach these subjects, one suitable textbook trying to cover the entire course is limited to prior application of public policy to water management and *visa versa*. Many reading assignments will be internet based and your only cost will be your time and access portal. The campus has computers for use by all students with and without personal/portable IT technology

Readings from pertinent Internet web sites will be assigned for each class topic. Students will be encouraged to search and review related links to supplement the information provided on the assigned sites and use the information to help generate discussions in the classroom.

Final Exam

The Academic Vice President requires that there shall be an appropriate final examination or evaluation at the officially scheduled time in every course, unless specifically exempted by the college dean who has curricular responsibility for the course.

University policy F69-24 at <http://www.sjsu.edu/senate/docs/F69-24.pdf> states, "Students should attend all meetings of their classes, not only because they are responsible for material discussed therein, but because

active participation is frequently essential to insure maximum benefit for all members of the class. Attendance per se shall not be used as a criterion for grading.”

Grading Policy

- 10% Classroom participation/ discussion of internet articles on topics of the week.
- 40% Nine (9) take-home problem sets will be given about a week apart. Each set will be 5%, but your lowest score will be tossed.
- 25% Research Report - Each student will write term report on a current local water issue. Suggested topics will be provided, but students may select a topic not listed.
Please download rubric at:
<https://sites.google.com/site/envs128sp2016watermanagement/home/research-assignment-rubric>
 - RESEARCH TOPIC ABSTRACTS are due on September 14, 2016
 - DRAFT TERM PAPER DUE *November 2, 2016, 11:59PM*
 - *FINAL DRAFT DUE November 30, 2016*Written submittals must follow paper requirements. (See below)
- 25% Final Exam. Take-home exam will be given two weeks prior to final class meeting and due on day of final scheduled meeting.

Normal Grade Rules

97-100 = A+	82-86 = B	70-71 = C-
92-96 = A	80-81 = B-	67-69 = D+
90-91 = A-	77-79 = C+	66-63 = D
87-89 = B+	72-76 = C	62-58 = D-

At SJSU, students are expected to spend at least two hours outside of class for every one hour of in-person class time. Because this is a three-unit course, you can expect to spend a minimum of **6 hours per week** completing class-related assignments in addition to the in-person class meetings. Assignments include weekly readings, problem sets, research and writing term report. These assignments may require work beyond the minimum 6-hours of work outside the classroom. Careful time management will help you keep up with readings and assignments and enable you to succeed in all your classes.

Note that “All students have the right, within a reasonable time, to know their academic scores, to review their grade-dependent work, and to be provided with explanations for the determination of their course grades.” See [University Policy F13-1](http://www.sjsu.edu/senate/docs/F13-1.pdf) at <http://www.sjsu.edu/senate/docs/F13-1.pdf> for more details.

Classroom Protocol

Students are expected to have completed reading assignments prior to class. Lecture will be supplemented with audio-visual media. A portion of each class will be spent as interactive discussion between instructor and students. Experts may be invited to some of the classes to augment the instructor’s expertise. Field trips will be scheduled as time permits.

Use of electronic devices are to be used during class time only for taking notes, viewing online material under discussion

University Policies

General Expectations, Rights and Responsibilities of the Student

As members of the academic community, students accept both the rights and responsibilities incumbent upon all members of the institution. Students are encouraged to familiarize themselves with SJSU's policies and practices pertaining to the procedures to follow if and when questions or concerns about a class arises. To learn important campus information, view University Policy S90-5 at <http://www.sjsu.edu/senate/docs/S90-5.pdf> and SJSU current semester's Policies and Procedures, at <http://info.sjsu.edu/static/catalog/policies.html>. In general, it is recommended that students begin by seeking clarification or discussing concerns with their instructor. If such conversation is not possible, or if it does not address the issue, it is recommended that the student contact the Department Chair as the next step.

Dropping and Adding

Students are responsible for understanding the policies and procedures about add/drop, grade forgiveness, etc. Add/drop deadlines can be found on the current academic year calendars document on the Academic Calendars webpage at http://www.sjsu.edu/provost/services/academic_calendars/. The Late Drop Policy is available at <http://www.sjsu.edu/aars/policies/latedrops/policy/>. Students should be aware of the current deadlines and penalties for dropping classes.

Information about the latest changes and news is available at the Advising Hub at <http://www.sjsu.edu/advising/>.

Consent for Recording of Class and Public Sharing of Instructor Material

University Policy S12-7, <http://www.sjsu.edu/senate/docs/S12-7.pdf>, requires students to obtain instructor's permission to record the course and the following items to be included in the syllabus:

- “Common courtesy and professional behavior dictate that you notify someone when you are recording him/her. You must obtain the instructor's permission to make audio or video recordings in this class. Such permission allows the recordings to be used for your private, study purposes only. The recordings are the intellectual property of the instructor; you have not been given any rights to reproduce or distribute the material.”
 - It is suggested that the greensheet include the instructor's process for granting permission, whether in writing or orally and whether for the whole semester or on a class by class basis.
 - In classes where active participation of students or guests may be on the recording, permission of those students or guests should be obtained as well.
- “Course material developed by the instructor is the intellectual property of the instructor and cannot be shared publicly without his/her approval. You may not publicly share or upload instructor generated material for this course such as exam questions, lecture notes, or homework solutions without instructor consent.”

Academic integrity

Your commitment, as a student, to learning is evidenced by your enrollment at San Jose State University. The University Academic Integrity Policy S07-2 at <http://www.sjsu.edu/senate/docs/S07-2.pdf> requires you to be honest in all your academic course work. Faculty members are required to report all infractions to the office of Student Conduct and Ethical Development. The Student Conduct and Ethical Development website is available at <http://www.sjsu.edu/studentconduct/>.

Campus Policy in Compliance with the American Disabilities Act

If you need course adaptations or accommodations because of a disability, or if you need to make special arrangements in case the building must be evacuated, please make an appointment with me as soon as possible, or see me during office hours. Presidential Directive 97-03 at http://www.sjsu.edu/president/docs/directives/PD_1997-03.pdf requires that students with disabilities requesting accommodations must register with the Accessible Education Center (AEC) at <http://www.sjsu.edu/aec> to establish a record of their disability.

Accommodation to Students' Religious Holidays (Optional)

San José State University shall provide accommodation on any graded class work or activities for students wishing to observe religious holidays when such observances require students to be absent from class. It is the responsibility of the student to inform the instructor, in writing, about such holidays before the add deadline at the start of each semester. If such holidays occur before the add deadline, the student must notify the instructor, in writing, at least three days before the date that he/she will be absent. It is the responsibility of the instructor to make every reasonable effort to honor the student request without penalty, and of the student to make up the work missed. See University Policy S14-7 at <http://www.sjsu.edu/senate/docs/S14-7.pdf>.

Student Technology Resources (Optional)

Computer labs for student use are available in the Academic Success Center at <http://www.sjsu.edu/at/asc/> located on the 1st floor of Clark Hall and in the Associated Students Lab on the 2nd floor of the Student Union. Additional computer labs may be available in your department/college. Computers are also available in the Martin Luther King Library. A wide variety of audio-visual equipment is available for student checkout from Media Services located in IRC 112. These items include DV and HD digital camcorders; digital still cameras; video, slide and overhead projectors; DVD, CD, and audiotape players; sound systems, wireless microphones, projection screens and monitors.

SJSU Peer Connections

Peer Connections' free tutoring and mentoring is designed to assist students in the development of their full academic potential and to inspire them to become independent learners. Peer Connections tutors are trained to provide content-based tutoring in many lower division courses (some upper division) as well as writing and study skills assistance. Small group and individual tutoring are available. Peer Connections mentors are trained to provide support and resources in navigating the college experience. This support includes assistance in learning strategies and techniques on how to be a successful student. Peer Connections has a learning commons, desktop computers, and success workshops on a wide variety of topics. For more information on services, hours, locations, or a list of current workshops, please visit Peer Connections website at <http://peerconnections.sjsu.edu> for more information.

SJSU Writing Center

The SJSU Writing Center is located in Clark Hall, Suite 126. All Writing Specialists have gone through a rigorous hiring process, and they are well trained to assist all students at all levels within all disciplines to become better writers. In addition to one-on-one tutoring services, the Writing Center also offers workshops every semester on a variety of writing topics. To make an appointment or to refer to the numerous online resources offered through the Writing Center, visit the Writing Center website at <http://www.sjsu.edu/writingcenter>. For additional resources and updated information, follow the Writing Center on Twitter and become a fan of the SJSU Writing Center on Facebook. (Note: You need to have a QR Reader to scan this code.)

SJSU Counseling and Psychological Services

The SJSU Counseling and Psychological Services is located on the corner of 7th Street and San Carlos in the new Student Wellness Center, Room 300B. Professional psychologists, social workers, and counselors are available to provide confidential consultations on issues of student mental health, campus climate or psychological and academic issues on an individual, couple, or group basis. To schedule an appointment or learn more information, visit Counseling and Psychological Services website at <http://www.sjsu.edu/counseling>.

EnvS 128 Water Resources Management
Spring 2016 Course Schedule

Week	Date	Topics, Readings, Assignments, Deadlines
1	8/24/16	Introductions & course overview
1	8/24/16	Managing Water by Watersheds Problem Set #1 assigned; Chapters 1 (Historical Perspectives of Water Use and Development) AND 2 (The Hydrologic Cycle, Climate, and Weather)
2	8/31/16	Semester Case Study: Coyote Creek Chapter 3 (Surface Water Hydrology) Problem set #2 assigned
2	8/31/16	Historical Ecology/Stream and Wetlands \Baseline Water Requirement Chapter 12 (Water, Fish and Wildlife); Assignment #1 due.
3	9/7/16	Watershed /Groundwater Connection Chapter 4 (Groundwater Hydrology) Problem set #2 due.
3	9/7/16	Surface Water Impoundments Problem set #3 assigned.
4	9/14/16	Artificial Groundwater Recharge with Reservoir Supplies Ch 7 (Dams) Research Topic Due
4	9/14/16	Groundwater Extraction/Overdrafts/Subsidence
5	9/21/16	Economics & Agricultural Water Demand Chapter 13 (Economics of Water) ; Problem set #4 assigned
5	9/21/16	Urban Water Demand Projections Ch 6 (Muni Water Development and Irrigation) Problem set #3 due
6	9/28/16	Inter-basin Transfers/Importing Water Problem set #5 assigned
6	9/28/16	Drinking Water Quality Problem set #4 due
7	10/5/16	Water Treatment/Desalination Problem set #5 due Chapter 11 (Drinking Water and Wastewater Treatment)
7	10/5/16	Urban Water Distribution Problem set #6 assigned
8	10/12/16	Improving Water Use Efficiency

Week	Date	Topics, Readings, Assignments, Deadlines
8	10/12/16	Sewage: Generation & Transmission Problem set #6 due Problem set #7 assigned
9	10/19/16	Urban Stormwater & Pollution Prevention Chapter 5 (Water Quality)
9	10/19/16	Grey Water Generation and Reuse, Rainwater Harvesting Problem set #7 due
10	10/26/16	Sewage Treatment & Disposal Problem set #8 assigned
10	10/26/16	Water Recycling and Reuse
11	11/2/16	Sediment Transport, Deposition and Tidelands FIELD TRIP: Coyote Creek Outdoor Classroom, located at 791 E. William St, in San Jose, between 16th & Bridge, across from the Williams Street Park. DRAFT TERM PAPER DUE
11	11/2/16	Flood Protection: Land Use Controls, Riparian Setbacks, FEMA Flood Insurance Program, Levees and Bypass Channels Problem set # 8 due Problem set #9 assigned
12	11/9/16	Flood Frequency Hydrology
12	11/9/16	Climate Change/Sea Level Rise Sacramento-San Joaquin Delta & New Convenience Chapters 14 (Water Use Conflicts); Problem set #9 due
13	11/16/16	Hydroelectric Power Generation
13	11/16/16	Integrated Water Resources Planning Sustainability and Carbon Footprints Chapter 15 (Emerging Water Issues)
14	11/30/16	Student Presentations
<u>14</u>	<u>11/30/16</u>	<u>Student Presentations</u> Final Draft of Term Report Due
15	12/7/16	Course Review
Final Exam	12/19/16	CLARK HALL, RM 303 12:15 – 2:30 PM
