

Families Across Borders

SHARE YOUR STORY

Families Across Borders is looking for participants to share their story regarding family separation due to immigration.

- This could be something your family has dealt with in the past or currently.
- We want insight from all generations.
- We want to hear from every cultural background.

We will be conducting video recorded and podcast style interviews.

The audio-podcast interviews will be kept anonymous depending on the interviewees preference.

All interviews will be conducted over Zoom.
