

Hazardous Materials Request Form

Instructions:

Submit completed form to ehschemicalpurchasingrequests@sjsu.edu

This form is to be filled out for chemicals that are ordered for the "FIRST TIME" by a Principal Investigator (if this is a reorder of an approved chemical in the same research lab, you don't need to resubmit). It is meant to ensure that all safety equipment, facility infrastructure and regulatory requirements are in place prior to the chemical arriving on campus. It is not intended to prohibit the ordering of any chemical, but rather to ensure that the University and its employees are able to comply with all pertinent legislation regarding chemical use and acquisition. **This form should be submitted for the purchase of research-grade lab chemicals.** Purchase of routine teaching lab chemicals and consumer available chemicals (like paints, cleaning products, automotive fluids, etc.) does not require submittal of this form.

Reminder:
Only order the amount you need.
We want to minimize the amount of hazardous waste generated by unused or off-spec chemicals.
