

ADVANCED PRACTICE POST-WORKSHOP ACTIVITY

Do the Flip! • San José State University

Friday, May 31, 2019

This document gives directions for completing the work necessary to flip one lesson following our face to face workshop (and incidentally meet the requirements for the \$250 stipend).

Post-workshop Activities: Please complete by June 28th.

Suggested timeline: Complete first draft and send to flip buddy by June 17th, get feedback by June 21st, revise and submit by June 28th.

Learning Objectives:

- Create a lesson plan together with associated guided practice and advanced practice documents based on best practices for flipping.
- Evaluate “what it will take” in terms of time, energy, attention, expertise, and other resources for you to flip a lesson or more than a lesson for a target class.
- Decide if and when you want to devote the time needed for the flip.

What to turn in:

1. A completed lesson plan for at least one lesson in your target class, that has been revised following **feedback from one of your workshop colleagues** (we’ll pair up in the workshop). This consists of three documents:
 - The lesson plan document
 - The “Guided practice” document for the lesson
 - The “Advanced practice” document for the lesson
2. Please upload the materials to the shared Google workshop folder <https://tinyurl.com/SJSU2019Flipped> by **June 28, 2019**. Zip your three documents (lesson plan, guided and advanced practice docs) and name the zipped file as follows: YourLastname_YourFirstname_LP. Please note that all documents should be **typed**. Electronic versions of the templates you have used in today’s workshop can be found in the subfolder named **Templates for Submission**.
