2. Performance and Dance Electives

c. Knowledge and or skills in one or more areas of dance beyond basic course work and performance appropriate to the individual needs and interest, and consistent with the goals and objectives of the specific liberal arts degree being followed.

Initial Evidence of Student Learning:

BA Assessment from Spring 2012

Four dance majors, who completed a semester of choreography beyond the two semester required course work, participated successfully in a supervisory project with original choreography to that was fully produced with lights and costumes. This required a broader spectrum of knowledge in terms of the craft of choreography than the requirement and included more specialized tasks such as selecting appropriate music, casting and rehearsing dancers over a twelve week period, organizing and being prepared for rehearsals and making decisions about costumes.

The faculty recognized this as the opportunity to exceed the basic requirement and agreed that these students were successful in meeting the demands placed upon them and producing above average work.

Change(s) to Curriculum or Pedagogy:

No changes required
