

Intensive Music Petition (CORE Area C) – Instructions (page 1)

Your petition will not be processed if you are not using the current form. Please check <http://www.sjsu.edu/gup/allForms/index.html> to be certain that you are using the most recent version of this petition.

Do not submit this petition until you have checked your “MyProgress” page within MySJSU to see if the appropriate Area C credit has been automatically granted for courses listed below.

This petition is only for undergraduate students who are matriculated (admitted and enrolled) at SJSU. **Students, who have successfully completed in-depth coursework in music that is not certified for GE, may request an alternative package to satisfy Area C.** Typically, students will have taken these courses when previously majoring in music, a field that required more in depth arts courses than those in the GE program.

Generally, a grade of “C or better” is required in all of the courses listed on the petition. The most common SJSU courses that are petitioned and commonly approved are the following:

Area C – MUSC 4A, MUSC 4B, and MUSC 12

[Note: Other courses may also be approvable. You may submit this petition for intensive science courses not listed in these instructions (for example, from out-of-state colleges/universities) or for grades <C (very rarely approved)].
