COURSE DESCRIPTION

From the SJSU Catalog: Treatment of essentials of U.S. history. Satisfies the American institutions requirement in U.S. history (US1) and the Core GE requirement in Social Sciences: Comparative Systems, Cultures, and Environments (D2).

History 15A is designed to introduce students to the essential events, ideas, turning points and transitions that have shaped American history from its origins to the present day. Students will examine key periods in American history focusing on both conventional and alternative interpretations of historical events and political processes that have shaped our modern economic, political and social systems. This information will be presented in a multi-cultural framework, including both conflict and consensus perspectives, of the choices and options available to individuals and groups in their social, economic and political relations. Students will also read key primary source documents and writings in the history of the United States, in order to give them direct exposure to the words, thoughts and feelings of the incredibly diverse personalities that helped shape and define the great epochs of the past five hundred years of American history. Finally, students will be able to draw connections between the great social, economic, political and cultural issues of the past and those issues that animate our American society today. Throughout the course of the semester, students will develop the skills used by historians to research, analyze, critically think and argue about the past, which will provide them with transferable skills essential for future success in their careers and in their roles as American citizens.
