Course materials (the syllabus, quizzes, guidelines for assignments) may be found on the course website on Canvas. You are responsible for regularly checking email for important messages about the class.

Course Description

Global perspectives on a century of scientific progress that also saw the violent deaths of millions, with emphasis on the decline of traditional imperialism and the ideological contention that led to World War II and the Cold War. GE Area: V Prerequisite: Prior to enrollment, all SJSU Studies courses require completion of core GE, satisfaction of Writing Skills Test and upper division standing. Pre/Co-requisite of a 100W course is strongly recommended for enrollment in Areas R, S, and V.

The 20th century was a time of revolutionary scientific and technological advancement and social change, but it was also a time of extreme violence and ideological contention. This course examines the history of the recently ended century from a global perspective. Key questions in this class include the following: if the 20th c. was so modern, why was it so violent? How have science and technology changed who we are and how we relate to each other? Why do we buy things made in distant places...and so what that we do? How and why have some resisted the promises of modernity? Is globalization really another example of western imperialism--or are we participating in a new, truly global era?

Focusing on global history in the twentieth century, students will receive an appreciation for human expression in cultures outside the U.S. and an understanding of how that expression has developed over time. Additionally, students will understand how traditions of cultures outside the U.S. have influenced American culture and society.

This class will be taught remotely, synchronously through the week ending February 11. That means that we will meet via Zoom at the scheduled class time. You are expected to participate in this class as you would if we were meeting face-to-face. Beginning on February 14, it will be taught in person. During class, both remote and in person, I will introduce material and students will participate in active discussion and analysis of the material.

IF YOU HAVE ANY TECHNOLOGICAL ISSUES (FOR EXAMPLE, NO MIC) PLEASE LET ME KNOW AND WE'LL FIGURE OUT A WORK AROUND (FOR EXAMPLE, CONTRIBUTING VIA THE ZOOM CHAT OR BORROWING EQUIPMENT). SJSU has a free equipment loan program (<https://www.sjsu.edu/learnanywhere/equipment/index.php>) available for students.

Course Goals and Student Learning Objectives

From a critical analysis essay:

This course focuses on learning through active engagement. The first five class sessions, held over Zoom, will be recorded and I'll post those recordings on Canvas. These will be an excellent resource if you want to review a class meeting or if you have to miss class. But viewing these recordings is not a replacement for participation. No in person classes will be recorded. If you have circumstances beyond your control that lead to you missing many classes, please talk to me as soon as possible so we can decide what sort of adjustments are appropriate for you to make up your participation.

“Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally three hours per unit per week) for instruction, preparation/studying, or course related activities, including but not limited to internships, labs, and clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.”
