

HonorsX 2023-2024: “Who are we 2030? Envisioning Sustainable Societies”

Summer: Expand our definition of sustainability and how to achieve it.

Fall: Urban sustainability

Spring: Rural sustainability

HonorsX at a Glance

1. **On the pulse of global change:** Join the historic wave of youth who are leading the way in social justice and creating a sustainable and equitable future.
2. **Academic inclusivity:** We invite the diversity, talent, and creativity of our SJSU students from all walks of life. No minimum GPA required.
3. **Centering self-directed learning:** We engage students in cross-disciplinary, integrative approaches to problem-solving, using problem-based learning techniques to foster student ownership of the learning process.
4. **An empowering learning community:** Students and faculty collaborate to define and solve pressing social, economic, and environmental problems in our society.
5. **Professional pathways through networking and mentorship:** Students will be paired with external experts and industry and community leaders whose work is aligned with their interests.
