Putting You at the Center of the SJSU Experience!

A Residential Learning Community

Living on campus is a critical part of the San José State student experience. Through intentional learning opportunities and community involvement, residents will be able to engage as contributing and empowered individuals who foster thriving communities. Our goal is to help residents develop self-awareness, relationships, cultural competency, and ethical leadership through a wide variety of initiatives such as one on one conversations, roommate agreements, workshops and more.

The residence halls and apartments are located on the main San José State campus, near classroom buildings, the library, recreation and dining facilities, and downtown San José. Professional and student staff members live within the residential community, providing residents with support and programming. Staff members are trained to handle a variety of situations, including roommate conflicts, policy violations and crisis situations.

Housing programs and services are designed to cultivate students’ academic and personal growth by supporting their transition to the university, acting as an extension of their classroom experience, and increasing their awareness of community responsibility. Through intentional strategies, residential students have the opportunity to build one on one relationships and get involved in social events, cultural activities, intramural sports, community service, and many other campus activities.

Weeks of Welcome

During the first weeks of the fall semester, there are many social events to help students get connected and build friendships, in addition to educational programs designed to support students as they develop their independence, and academic workshops to assist students in preparing for their classes.

- Pillows and blankets
- Towels

Housing Application Process

Housing spaces are limited, and we suggest that you apply for housing as soon as you decide to become a Spartan! It is a good idea to file your intent to enroll prior to applying for housing, but you can apply for housing any time after the application becomes available (usually, early in the spring).

Housing applications are accepted online and all applicants should be prepared to submit the following:

- A completed online University Housing Services application
- A nonrefundable application fee
- An initial payment (which is applied towards housing charges)

To view the most up-to-date fees for housing, visit sjsu.edu/housing and click on the "Housing Application Portal" button to begin the application process.

All steps must be completed in order for your housing application to be considered complete.

The housing application deadline is May 1. The sooner you submit your completed license agreement and initial payment, the greater your chance of receiving your building and room type preference. If you plan to live on campus and need financial assistance to do so, we encourage you to apply for financial aid prior to the financial aid priority application deadline. International students do not qualify for financial aid.

To apply for housing, visit sjsu.edu/housing and click on the “Housing Application Portal” button to begin the application process.
