TECHNOLOGY PATHWAYS PROGRAM - INTERDISCIPLINARY COMPUTING SUMMER INSTITUTE

Developing University-Industry Partnerships
Creating Educational and Career Pathways

Please join us for a day and a half of informative and fruitful conversation among faculty and industry leaders from Silicon Valley, as we consider new ways to develop pathways for students to thrive in the 21st century digital workplace.

We invite teams from campuses to join us as we:

- Consider perspectives from industry leaders
- Engage in conversation about innovative institutional approaches
- Discuss curriculum development, best practices and lessons learned
- Explore ways to provide faculty development and support
- Share ideas for creating opportunities for students to learn from and in the "real-world"
- Build community among faculty and industry professionals to educate the next generation of interdisciplinary innovators
