

How to Connect to SJSU-VPN Using Cisco AnyConnect (For MacOS) Faculty and Staff ONLY

NOTE: This guide is for SJSU Faculty and Staff only. If you are a Student looking to connect to VPN, please go to the [VPN Guide for Students](#)

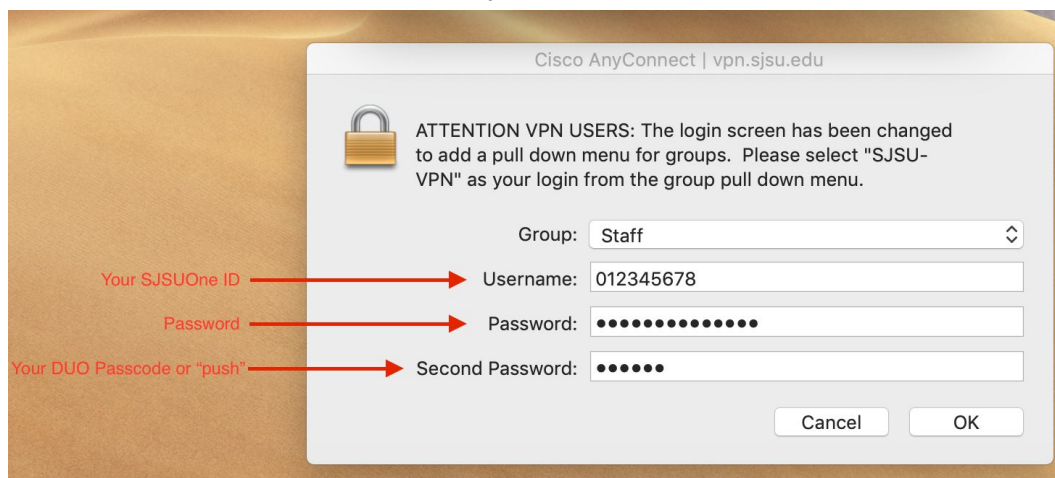

1. If you haven't already, please submit a ticket to IT requesting VPN access [here](#)
2. Download and install the [Cisco AnyConnect VPN Client](#) via the SJSU website
 - a. If you're using an SJSU issued computer and need assistance with installing the VPN Client, please contact your IT Support Tech.
3. Once the VPN Client is installed, open the **Cisco AnyConnect** application
 - a. Open Finder > Applications > Cisco

4. In the box, type **vpn.sjsu.edu**. Click **Connect**. Another box will pop up prompting for a username and password.
 - a. NOTE: Make sure that the group you belong to is selected on the **Group** drop down box. You must select one of the three groups listed below:
 - i. Faculty select the **Faculty** group
 - ii. Staff select the **Staff** group

5. Enter your **SJSUOne** credentials.
 - a. The **Username** is your SJSUOne ID
 - b. The **Password** is the password associated with your SJSUOne ID
 - c. The **Second Password** is your DUO Passcode generated by your DUO key fob or your smartphone's Duo app. If you use your smartphone for DUO authentication, you may also type the word "**push**" in the second password box to send a push notification to your phone.
