

Steps to Add A LinkedIn Learning Assignment in Canvas

The following steps walk through the process of creating a LinkedIn Learning assignment in Canvas.

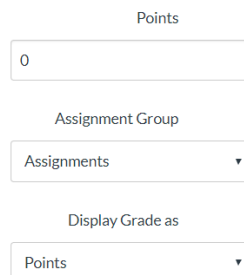

1. Go to **Assignments** in the Course Navigation and click the **Add Assignment** button.

2. Enter the Assignment name and the Description as required.

A screenshot of the Canvas assignment creation form. At the top is a text input field for 'Assignment Name' with a red label 'Assignment Name' to its right. Below this is a rich text editor with a toolbar containing various formatting options like bold, italic, underline, and link. The editor area is currently empty and has a red label 'Description' to its right. At the bottom right of the editor, it says '0 words'.

3. Enter the Points, assign the Assignment Group and choose a Display Grade type as desired, such as points or percentage.

A screenshot of the configuration options for the assignment. It includes three input fields: 'Points' with a value of '0', 'Assignment Group' with a dropdown menu showing 'Assignments', and 'Display Grade as' with a dropdown menu showing 'Points'.

- In the **Submission Type** drop-down menu, select the **External Tool** option.

Select

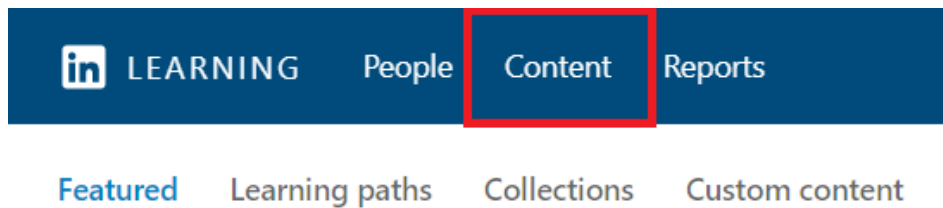

- Log into one.sjsu.edu in a new tab and locate the LinkedIn Learning tile. Click the Start button to access LinkedIn Learning.

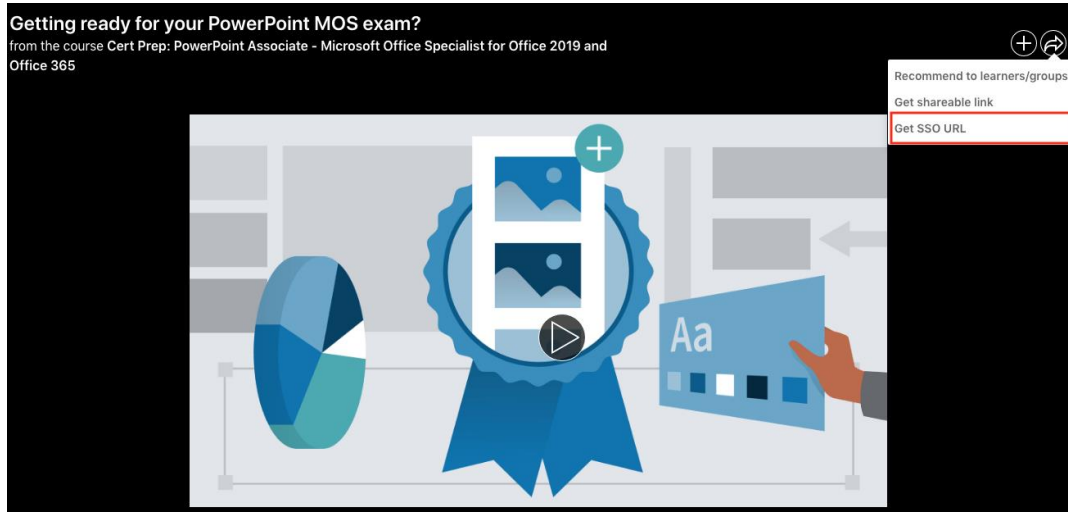

- Once logged in, across the top navigation menu, locate and click on the option: **Go to Admin**.

- Locate the content you would like to share by first clicking on **Content**.

10. After locating the course, click on the **Recommend** icon and select **Get SSO URL** from the dropdown menu. Copy the course link to your clipboard.

11. Paste the LinkedIn Learning course link into the External Tool URL box. The assignment should load in a new tab, so click on the **Load in a new tab** checkbox.
