Department of Justice Studies Reading and Writing Philosophy

The Department of Justice Studies is committed to scholarly excellence. Therefore, the Department promotes academic, critical, and creative engagement with language (i.e., reading and writing) throughout its curriculum. A sustained and intensive exploration of language prepares students to think critically and to act meaningfully in interrelated areas of their lives—personal, professional, economic, social, political, ethical, and cultural. Graduates of the Department of Justice Studies leave San José State University prepared to enter a range of careers and for advanced study in a variety of fields; they are prepared to more effectively identify and ameliorate injustice in their personal, professional and civic lives. Indeed, the impact of literacy is evident not only within the span of a specific course, semester, or academic program but also over the span of a lifetime.

Course Goals

The goals of the course are: (1) to be familiar with various perspectives of criminal behavior, underlying assumptions of these perspectives and key terms; (2) to assess and analyze research concerning current issues in crime and the criminal justice system critically; and (3) to see linkage between theories, research and practical social control policies.

Course Learning Outcomes (CLO):

Upon successful completion of this course, students will be able to:

CLO #1 Demonstrate an ability to integrate and apply different theoretical perspectives to explain a range of specific criminal offenses, and be able to compare and construct the strengths and weaknesses of those theories.

CLO #2 Demonstrate substantive knowledge about the measurement of crime and discuss the advantages and disadvantages of major sources of crime rate.

CLO #3 Demonstrate substantive knowledge about the extent and severity of formal and informal responses to various types of crime and offenders.

CLO #4 Demonstrate a thorough understanding of the prevalence of various types of crime, and the characteristics of likely offenders and victims.
