Catalog Year 2016-17**

SJSU Degree: Forensic Science, Concentration in Biology

The AS-T in Chemistry guarantees completion of 60 transferable units and may use the IGETC for STEM (^all lower division core GE satisfied except for one course in C and one course in D). This transfer degree will meet the CHEM 1A, 1B, 112A+112B+113A (content credit only); PHYS 50, 51 (in substitute of PHYS 2A+2B for this major); MATH 30 and 31 requirements at SJSU. Below is the path to the BS Forensics Science, Concentration in Biology degree in 60 semester units with the transfer AS-T in Chemistry degree:

(This roadmap has an approved P.E. waiver)

*Notes: A minimum of 40 upper division units must be completed for degree. This roadmap is a sample pathway. Check with a major advisor regarding the most appropriate course sequence for you. 60 units minimum will be transferred with this degree, however up to 70 transfer units can be applied to the lower division major and lower division free electives if articulated.

^ FS 160 will substitute for FS 161 only if student enters SJSU with an IGETC for STEM and is missing 3 units in C and 3 units in D (or has not transferred with additional lower division course work as shown on the roadmap above). Students will need to take upper division Area C and D and Statistics in order to meet the *minimum of 40 upper division units needed for degree.
