Course Requirements and Assignments

*This course does require you to read and submit written assignments as well as your skills for jogging. There are two skills test that will be based on your skills and efficiency in those jogging skills, this includes effort, improvement in distance, and improvement in form. To do this successfully, a third jogging day on your own time will help. jogging only 2 days a week is the bare minimum to see any kind of improvement.

The rest of your grade is based on the following assignments:

*Mid Semester Jogging Journal. You must keep a Jogging Journal, in Word format, and must record the following each time you run: time of day, distance, total Jogging time, average minute/mile time, weather, how you felt about the run (pre and post), nutrition and hydration pre- and post-run. This will be checked at mid-term in the semester. A journal can be brought to class in order to keep track of jogs. Do not wait until the night before to write everything!

*Final Exam: This will be the complete Jogging Journal from the beginning of the semester to the end of the semester. It will be completed on the final day of class.

*Jogging Application will be downloaded on your phone and will be used to track your progress during the semester. You will need to sign up and join the group at www.mapmyrun.com

*You will also be responsible for a Jogging Map in the beginning of the semester.
