Course and Contact Information:

Instructor: Dr. Joan Steidinger, AASP Fellow
Office Location: SJSU Rm. 171
Telephone: (415) 288-4252
Email: joan.steidinger@sjsu.edu
Office Hours: Monday & Wednesday 8:00 – 9:00

Classroom: Section 1: In person, Spartan Complex East 163
Section 2: In person, Spartan Complex East 163

Prerequisites: PSYCH 1

Course Description: The purpose of this course is to learn the psychological variables impacting the performance of physical activity and exercise. The class will discuss different theoretical perspectives and research findings in the fields of sport and exercise. The review of practical applications and special issues will also be presented. Topics addressed include, but are not limited to, an introduction of the definition of sports psychology, personality, motivation, goal setting, arousal & anxiety, group cohesion, and application of sport psychology techniques.

Required Text:

Course Objectives:

1. Students will understand the basic concepts of sports psychology.
2. Students will learn about the theoretical perspectives and underlying principles of sports psychology, including personality, motivation, cognitive behavioral, arousal & anxiety, goal setting, group cohesion, and psychology of athletic injuries.
3. Students will receive an overview of different applied sport psychology techniques through explanations and actual examples of their application with athletes and teams.
4. Students will become familiarized with several notable special issues in sports, including gender, race, LGBTQ, and social justice concerns through the use of speakers and videos.

Assignment Grading in Points

10 Active Class Participation
