

Math 30P, Math 30, Math 60, Math 71 Registration Instructions

Calculus Placement Exams

Nearly all students who wish to enroll in Math 30 Calculus I, Math 30P Calculus I with Precalculus, Math 60 Calculus for Biological Sciences or Math 71 Calculus for Business and Aviation are required to take the Calculus Placement Examination (CPE). The Calculus Placement Exam does not exempt students from the Entry Level Math (ELM) exam. Students can take Math 8 College Algebra, Math 10 Math for General Education or Math 19 Precalculus without taking the CPE as long as they satisfy the ELM requirement. The Calculus Placement Exam (CPE) covers material from four years of college prep math, and it has two parts, part 1 is an exam which covers College Algebra, and part 2 is a Calculus Readiness Exam which covers College Algebra, Trigonometry, and Properties of Elementary Functions. Students who want to take Math 30, 30P, or Math 60 are required to take both parts of the CPE, and if they do not pass the exam they will be required to start in Math 19 Precalculus. Students who want to take Math 71 are only required to take the first part of the CPE exam, and if they do not pass the exam they will be required to start in Math 8 College Algebra. Some review problems are posted at Review. Please read the following instructions carefully.

You MUST [sign up](#) for the exam PRIOR to the day of the exam.
