

## CROSSING BARRIERS SPEAKER SERIES

# JENNIFER LU,

DIRECTOR OF THE MERCED  
NANOMATERIALS CENTER  
FOR ENERGY AND SENSING

**TUESDAY, FEBRUARY 11, 2020**  
**3 PM - 4 PM**  
**ENGR 285**  
**LIGHT REFRESHMENTS TO FOLLOW**

Dr. Lu will present ongoing research activities in her **Nanofunctional Materials Lab**, and introduce a **summer Undergraduate research program** and a **Graduate training opportunity**.

Jennifer Lu is one of the first three faculty members establishing the Materials Science and Engineering program at UC Merced. With 10 years of industry experience from IBM and Agilent, she holds more than 20 patents related to device fabrication and new material platforms for energy conversion.
