

Remedial Courses for Engineering majors who have a non-ME degree and applying for MSME admission

If your bachelor's degree isn't in mechanical engineering, but you have graduated with some other engineering major, you can qualify for MSME admission if you satisfy the followings:

1. Meet the minimum admission requirements as stipulated by the Graduate Admissions office.
2. After a conditional admission to the MSME program, complete the following courses prior to exceeding 12 units at SJSU.

ME 106

ME 114

ME 147

ME 154

One of the three Capstone Courses: ME 157 or ME 182 or ME 190.

NOTE: If your undergraduate program is deficient in any of the fundamental engineering courses, additional courses will be added to the above list.
