

2022 Mechanical Engineering Scholarships Call for Applications

The ME Department is pleased to invite applications for department scholarships. Applications will be evaluated based on academic excellence, engineering accomplishment, leadership, and service.

To apply, use the link below to submit your online application. You will need to complete 'Step 1: general application' AND the additional information required in 'Step 2: other recommended opportunities.' In Step 2, click each of the following ME scholarships summarized below to apply for the ones that you meet eligibility.

SJSU Spartan Scholarship applications

Deadline: 11: 59 pm on April 8 Friday.

Mechanical Engineering Endowment Scholarships are for ME seniors, juniors or graduate students who have demonstrated their excellence in education. Special consideration will be given to students pursuing their senior project or master's project/thesis in areas related to fluid mechanics.

David A. Brown Fellowship in Mechatronics is to promote the professional development of a junior, senior or graduate engineering student in the area of Mechatronics and advance the development of the Mechatronics program at SJSU. Applicants should have taken ME106 or ME285, or an equivalent course elsewhere before Spring 2022. Recipients will be encouraged to apply to the TA positions for ME 106 during the 2022-2023 academic year. Please contact Dr. Furman at burford.furman@sjsu.edu for details.

Steven Meacham Memorial Scholarship is awarded in memory of ME student Steven Meacham, who was to graduate in Fall 2017. Students selected for this scholarship must be undergraduates eligible to take their senior design project classes in the next academic year. The selected student must complete a community-service oriented senior project in their ME 195A&B during the academic year 2022-2023. The project will be assigned to the selected students by Dr. Okamoto. The student is also welcome to submit a community-service project of their choice to Dr. Okamoto for approval.

Robert Dees Award is for promising and deserving ME undergraduate or graduate students.

Francis Huang Memorial Scholarship Award is for deserving and promising ME junior, senior or matriculated Master's candidates during the scholarship year.

Mechanical Engineering Veterans Scholarship is a scholarship for veterans. Applicants must be a veteran majoring in Mechanical Engineering.

The number and amount of scholarship awards are to be determined based on funds available. All awardees are required to attend the ME scholarship award ceremony on Thursday, May 12th, beginning at 7:00 PM. This will be a virtual event. Scholarship donors will be invited to this event as well as ME alumni.
