

Dispense and Activate Your Shield T3 Health COVID-19 Saliva Test Kit

Available for SJSU students, staff, and faculty.
You must have a smartphone to access a test kit.

1

Scan the login QR code on the vending machine to access the **Student Wellness Center Patient Portal** or visit <http://sjsuportal.pointnclick.com> and enter your date of birth

2

Click the "**Get a ShieldT3 Covid-19 Test,**" tab and scan the QR code on the vending machine screen using your smartphone camera that says "**Dispense Test.**" Check the machine for your dispensed test.

When you're ready to provide a sample, you must *activate the test kit*. Click the "**COVID Test Self Collection Activation**" tab.

Dispense and Activate Your Shield T3 Health COVID-19 Saliva Test Kit

4

Once you have activated your kit, collect your test sample. Visit linktr.ee/sjsuwellness for a video link with step-by-step instructions.

Do not eat, drink, chew gum, use mouthwash, or smoke within 60 minutes of taking the test. If your sample is rejected, you will have to retake the test.

Failure to activate your test will prevent the lab from processing your sample.

5

Drop off the completed test kit in the locked box next to the vending machines at the Student Wellness Center or the Student Union.

Test Kits are picked up daily at 2:30 p.m. and samples are only viable for 24 hours after the test is activated.

If you drop off your sample after the pick up time, your test will be processed the next day.

6

You will receive a secure message from the Student Wellness Center Patient Portal via email when test results are ready to view. Log in to view your results, when available.

Thank you for doing your part to keep our community safe!

Email studenthealthcenter@sjsu.edu (students) or up-vaccine-mgmt@sjsu.edu (staff/faculty) with any questions.
