

PHIL 009 section 01, “**Mathematics and Logic
for General Education**”

Mondays and Wednesdays, 12 – 1 15, SH241
Fall 2018

Noah Friedman-Biglin
noah.friedman-biglin@sjsu.edu

(cat pictures makes everyone feel better – even in a math class!)

Need to fulfill your B4 requirement? Want to make progress towards your philosophy degree at the same time? Just want to boost your scores on the GMAT or LSAT? Consider taking logic!

This course will be a survey of basic concepts and methods in logic, focusing on mathematical logic, and formal proof. Some emphasis will be placed on using these concepts in standardized testing, and in philosophy in general.

Also Available for ALL 009 students: PHIL 96L – Logic Workshop! Brand new 1-unit course offering extra help and support learning logic!!

This course has no prerequisites, and satisfies the B4 lower-division GE requirement.
