

PHIL 149

Metaphysics & Epistemology:

DR. REBECCA CHAN
Spring 2020, T 3-5:45pm

We'll investigate free will in this upper-level M&E course. Topics include:

- (i) Can we be free in a deterministic world?
- (ii) What can the sciences tell us about whether we have free will?
- (iii) Does it matter whether we're free?
- (iv) What can time travel tell us about freedom?

“Readings” will be drawn from academic texts, popular articles, literature, and film.

Assessment in the class will be based on discussion, presentations, written work, and creative projects.
