Philosophy 109:01; 48184 Fall 2020 TR 0900-1015

This course surveys ideas, terms and concepts in religious belief and expressions, religious literacy, religions and gender, politics and power. Our study considers religions of east/west origins.

We will use various scholarly articles on these topics and also give consideration as to how secularism has challenged religions by considering 'Death of God' philosophical-theology with the book, *After the Death of God*. Students will explore consequences of secularism on a religion of their choice.
