Hone Your Craft

What Sets Us Apart

The summer degree is fully accredited and follows the same curriculum as the traditional school year master's degree.

Our coursework is grounded in El Sistema ideals of access, youth development, rigorous musicianship and community development.

We offer a hybrid online/residency approach. Reading-intensive theoretical coursework is online, while activity-based workshops are offered during the short residency.

What Our Graduates Say

“Because of the program, I am a more confident teacher which has benefited my students, has given me new resources in the staff who guided me through the program and new friends and connections in music education. What I received while participating in the program far exceeded my expectations.” – *La Nell Martin*

“The program is incredibly affordable. The professors are incredibly supportive and want you to succeed. I was able to choose and complete a culminating project that was personal and specific to my interests.” – *Kendra Scott*
