## Why Choose Us

The Master of Science in Medical Product Development Management (MPDM) program prepares students with customized technical classes and MBA-level business and management courses. This unique combination provides skills that are highly valued in this fast-changing industry.

## Industry-Proven Professors

MPDM faculty members are award-winning scholars and every instructor brings broad industry knowledge and exceptional experience to the classroom.

## Career Advancement

Positions students to lead and work in clinical operations management, clinical trials monitoring, quality, regulatory, and the complex interdisciplinary process of medical product development.

## Convenient Schedule

All classes (13 courses) are held in the evenings, on weekends, or online allowing students to work while successfully completing their degree.

*Fees should be regarded as estimates that are subject to change upon approval by the Board of Trustees, the Chancellor, or the President, as appropriate.
