Course Description
In Psychology 100W students are given the opportunity to develop writing skills appropriate to the broad field of psychology, including essays, reports and scholarly communication.

The general goals of 100W are that students will develop advanced proficiency in college-level writing and appropriate contemporary research strategies and methodologies to communicate effectively to both specialized and general audiences. Written Communication II should reinforce and advance the abilities developed in Written Communication IA and IB and broaden and deepen these to include mastery of the discourse peculiar to the discipline in which the course is taught.

GE Learning Outcomes (GELO)
Learning Outcomes (LOs) are specific, measurable goals and objectives that students have demonstrated upon successful completion of the course. 100W is designed to address 3 levels of Learning Outcomes:
GE/SJSU Learning Outcomes (LOs)
These are outcomes mandated by General Education.

Course Learning Outcomes (CLOs)
These are outcomes for this specific course. For Psychology 100W, Course Learning Outcomes (CLOs) are the discipline-specific ways in which the general GE/SJSU learning outcomes (LOs) for 100W (Area Z) will be fulfilled. The specific CLOs for this course contribute to the overall experience, learning opportunities, and Program Learning Outcomes (PLOs) students are exposed to when completing the SJSU Psychology Major.

Program Learning Outcomes (PLOs)
These outcomes refer to the broad goals of the SJSU Psychology Major program. The SJSU Psychology Major is designed to address 5 broad PLOs. These PLOs are outcomes students should be able to demonstrate after having successfully completed the Psychology Major.

GE/SJSU Student Learning Outcomes (SLOs)
Students shall write complete essays that demonstrate college-level proficiency. Students shall be able to:

SLO 1. produce discipline-specific written work that demonstrates upper division proficiency in: a. language use b. grammar c. clarity of expression.

SLO 2. explain, analyze, develop, and criticize ideas effectively, including ideas encountered in multiple readings and expressed in different forms of discourse.

SLO 3. organize and develop essays and documents for both professional and general audiences.

SLO 4. organize and develop essays and documents according to appropriate editorial and citation standards.

SLO 5. locate, organize, and synthesize information effectively to accomplish a specific purpose, and to communicate that purpose in writing.

Course Learning Outcomes (CLOs)
For Psychology 100W, the general GE student learning outcomes (SLOs) for 100W (Area Z) will be fulfilled in the following discipline-specific Course Learning Outcomes (CLOs) [matched GE SLOs indicated in brackets]. Upon successful completion of this course students will:

CLO 1. have developed proficiency at using databases (e.g., PsycINFO and MEDLINE) to locate empirical research and research review articles in an area of psychology [SLO 5]

CLO 2. have demonstrated competency in American Psychological Association (APA) writing style, including grammar, spelling, and syntax [SLO 1, 4]

CLO 3. have summarized and evaluated empirical research articles in an area of psychology [SLO 1, 2, 3, 4]

CLO 4. have written for a general audience [SLO 1, 2, 3]
CLO 5. have organized and developed a literature review, or other appropriate major paper (e.g., research report) in an area of psychology [SLO 1, 2, 3, 4, 5]

CLO 6. have begun to develop critical thinking skills in psychology including the ability to [SLO 1, 2, 3, 4, 5]:
   a. synthesize disparate research findings into a coherent framework which addresses a question or topic relevant to the discipline of psychology, and/or
   b. compare and contrast differing theories and research findings.

**Program Learning Outcomes (PLO)**
Upon successful completion of the psychology major requirements…

**PLO1 – Knowledge Base of Psychology** – Students will be able to identify, describe, and communicate the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology.

**PLO2 – Research Methods in Psychology** – Students will be able to design, implement, and communicate basic research methods in psychology, including research design, data analysis, and interpretations.

**PLO3 – Critical Thinking Skills in Psychology** – Students will be able to use critical and creative thinking, skeptical inquiry, and a scientific approach to address issues related to behavior and mental processes.

**PLO4 – Application of Psychology** – Students will be able to apply psychological principles to individual, interpersonal, group, and societal issues.

**PLO5 – Values in Psychology** – Students will value empirical evidence, tolerate ambiguity, act ethically, and recognize their role and responsibility as a member of society.

GE requirements for 100W stipulate that students shall write a minimum of 8000 words in the course of the semester, and that they shall be provided with frequent practice and feedback for improving their communication skills.

Course Requirements and Assignments
An assignment summary table appears at the end of this syllabus. Details for each assignment are provided in lectures and in assignment information sheets. Assignment information sheets (as well as other useful resources) can be found on the course Canvas site. You are expected to bring copies of each handout (paper or electronic) to the appropriate class.

The written assignments in Psychology 100W are designed to gradually build the writing and research skills necessary to write scholarly papers appropriate for the discipline of psychology. The major skills and associated assignments include (but are not limited to):

Basic skills review
Includes plagiarism tutorial, research skills tutorial, formatting tips in Microsoft Word, and so on

Writing assignments (including, but not limited to)
- Dissecting a Literature Review
- Article Summaries and Evaluations of Literature Reviews* (see descriptions below)
- Literature Review development (see description below)
- Peer Reviews
- Brief Research Report (see description below)

*Students will have the opportunity to revise and resubmit work in response to instructor feedback.

Mini-Literature Review
One of the major papers for this course is a literature review (see description below). To prepare you for this assignment you will write a “mini-literature review” (approx. 800 words) that will help you to learn how to read, understand, and accurately report psychological research reports, develop synthesis skills by describing how studies build upon one another, and apply APA style.
Literature Review
The final major paper you will be writing for this course is an APA style literature review (approximately 2000 words including references; 10 or more scholarly references). The goal of a literature review is to answer a research question by describing and synthesizing relevant theory and research findings relevant to the question. You will develop your final literature review in several assignments, including (but not limited to):

Research Question Assignment
• in which you develop, with help from the instructor, a research question appropriate to the discipline of psychology and to the requirements of the course.

Annotated References Assignment
• in which you identify at least 10 – 15 sources relevant to your literature review topic using databases and other resources appropriate to psychological research.

Outline Assignment
• in which you organize the main points of your literature review and indicate which sources will be used to support the main point, and how they will do so (e.g., full summary of the article vs. “microsummary” of the article)

Literature Review Conferences and Drafts
• in which you receive feedback and revise your paper as needed.

Research Report
A second major paper you will be writing for this course is an APA style research report (approximately 1000 words including references). The goal of a report is to describe the results of an empirical study. We will be conducting a simple study in class, and you will write the research report as if you were the experimenter.

Final Examination or Evaluation
The final evaluation for this course is the oral presentation of students’ literature review. Due to time constraints, these presentations are scheduled over several class periods at the end of the semester – including during the time of the final exam.

Grading Information
Course grades will be based on the number of points accumulated throughout the semester. The PSYC 100W Assignment Summary Table below summarizes the points and percentage of course grade associated with each assignment. Rubrics for all major assignments can be found on the course Canvas website. Final grades in this course will be assigned as indicated below.

Late Assignments
Assignments are due at the start of class (turned in during class or uploaded to Canvas) on the day indicated on the course schedule. If due dates are changed, the new due date will be announced in lecture and posted on Canvas in a timely fashion. No extensions will be given except in cases of reasonable and documented academic reasons, emergencies, serious illness, or similar seriously disruptive events. If such a circumstance should arise, please contact me as early as possible and be ready to provide documentation.

Subject: Psych 100W Section X: Assignment due date question

Dear Dr. Jeffery,
My name is Miranda Jackson and I am in your 100W class that meets M/W 10:30 - 11:45. I am not sure when the Response Journal assignment is due because of conflicting information. The syllabus schedule says Nov. 5, but the assignment sheet itself says Nov 9. Thank you for your attention to this matter.
Regards,
Miranda

Regular attendance and note-taking
Both are necessary to do well in this course. **Although the course has an online resource, this resource is not a substitute for attending lectures. Plan to take notes during all lectures.**

Laptops
In-class laptop use should be restricted to course-related activities (e.g., taking notes). Other activities (e.g., web surfing) distract both the instructor and students and will not be tolerated. You will be asked to turn off your laptop if you are engaged in non-class activities. You will be asked to refrain from laptop use for the duration of the course if this behavior continues.

Cellphones and other electronic devices
Please be certain to turn off or put in silent mode all cell phones, pagers, and any other devices that produce distraction prior to entering the classroom.
Late arrivals
If you must arrive late or leave early, please do so quietly and with a minimum of distraction.

Be respectful of others
Respect differing points of view offered by students. Independent discussions should not be happening when someone is addressing the class. Pay attention to your fellow students when they are presenting.

Come to class prepared
“Prepared” means you have completed the readings and any assignment before class starts and written down any questions you had from the assignment. Be prepared to take notes.

Communication
- Set your spam controls to accept my emails and Canvas notifications.
- Regularly check any email addresses that you have in the SJSU system. If you have both an SJSU email address and a personal email address in the system, be sure to check both.
- Please communicate with me regularly. Use email! Use Canvas messaging! Use office hours! Talk to me!!
- Please email me in advance if you will not be in class.
- I will communicate important information and/or updates via Canvas. For example, if I become ill the morning of class, I will notify you via Canvas that I will be absent.

To avoid missing important Canvas notifications, do the following:
In Canvas, click “Account” → “Notifications” → under “Course Activities”, select checkmark for all settings.

NOTE: The student is responsible for all information contained in instructor communications.
Check your grades on Canvas regularly
Check your grades regularly on Canvas to make sure you are not missing any assignments. Let me know if you have any questions.
