59 with regard to the appointment of the Associate Deans from undergraduate and graduate studies
60 to this committee. In addition, in recognition of the ongoing development of departmental
61 policies with regard to probation and disqualification in the major, it places the authority and
62 responsibility for the development of guidelines, review of departmental policies, and subsequent
63 appeals, with the group historically responsible for matters pertaining to academic probation,
64 disqualifications, and reinstatement.
