

Candidate's Statement for Instructional and Student Affairs Chair 2021

Chairing the largest and most diverse of the policy committees for the senate is a privilege. It is a privilege that I hope to continue next year. The challenge of chairing ISA continues to inspire me to serve the senate and to respond to the needs of the university. It is work that I have missed during my sabbatical this semester.

The highly varied work of ISA committee is critical to the university's mission and student success. It requires great calm and a commitment to growth as an individual, as there are always new group dynamics to manage, new university procedures to learn, and new colleagues to get to know. I have this commitment and would appreciate your support as ISA chair next year.

Thank you for your consideration,
Laura Sullivan-Green
