

I am honored to be nominated for the chair of Organization and Government. Chairing this committee would be a unique privilege to help ensure quality operations of our university committees, departments, and our academic senate. Such a responsibility is both humbling and exhilarating. I look forward to the opportunity to participate on different Senate Policy Committee. As a chair of the Instruction and Student Affairs Committee, I have developed many management skills that I believe respect and value all members' contributions to committee work.

My experiences in the Senate, as chair of ISA, and at SJSU have provided a strong foundation on which I can exercise leadership skills, as well as effectively navigate policy development across constituencies. I have focused on developing administrative and leadership skills in the last few years by participating in the Deans' Leadership Academy and the Academic Affairs Leadership Discovery Group, as well as taking on new challenges, including being the Project Director for a Department of Education grant, chairing the Civil and Environmental Engineering Department, and serving as an Associate Editor for the Journal of Performance of Constructed Facilities.

Thank you for your consideration,
Laura Sullivan-Green
