S11-1, Policy Recommendation, Determination of Academic Standing

Legislative History: Clarifies S10-6

At its meeting of February 14, 2011, the Academic Senate approved the following policy recommendation presented by Senator Gleixner for the Instruction and Student Affairs Committee.

**Action by University President: Approved and signed by
President Don Kassing on
February 28, 2011**

**Policy Recommendation
Determination of Academic Standing**

Whereas, Academic standing is critical to providing students timely advising and accurately determining probation and disqualification status; and

Whereas, CSU Executive Order 1038 Minimum Requirements for Probation and Disqualification states "Students disqualified at the beginning of a summer enrollment break should be notified at least one month before the start of the fall term. In case where a student ordinarily would be disqualified at the end of a term, save for the fact that it is not possible to make timely notification, the student may be advised that the disqualification is to be effective at the end of the next term. Such notification should include any conditions which, if met, would result in permission to continue in enrollment."; and

Whereas, In recent years the Registrar's Office has usually, but not always, determined Disqualification status only after Fall and Spring semesters; and Probation status after Winter and Summer terms as well as after Fall and Spring; and

Whereas, S10-6 states “Academic Standing will be determined only at the end of Fall and Spring semesters.” However, this clause is ambiguous as it is in section I.B.2 and thus only applies to administrative-academic disqualification; therefore be it

Resolved, Probation standing will be determined after Winter intersession, Spring semester, Summer term, and Fall semester. Disqualification status will be determined only after Fall and Spring semesters.

Note: CSU Executive Order 1038: Minimum Requirements for Probation and Disqualification can be found at <http://www.calstate.edu/eo/EO-1038.html>
