No. 2  
Proposed Resolution on Admissions and Staffing

Academic Council of  
San Jose State College  
March 22, 1965

Submitted by: Wheeler, Heath and Rogers

WHEREAS, an overload of approximately one thousand students was carried by San Jose State College on an emergency basis during the academic year 1964-65; and,

WHEREAS, that which was carried as an emergency overload in 1964-65 is currently treated as a normal load in the Governor's "Bare Bones" budget proposed for 1965-66; and,

WHEREAS, San Jose State College has been authorized by the Board of Trustees, C.S.C., to enroll a total of 15,840 F.T.E. students during the academic year 1965-1966; and,

WHEREAS, San Jose State College has been allotted a budget for 15,272 F.T.E. students (based on a faculty of 925 F.T.E. positions); now, therefore, be it

RESOLVED: that the Academic Council of San Jose State College requests the President to direct that new admissions and/or readmissions to San Jose State College during the academic year 1965-1966 be limited to such numbers that the total of enrolled F.T.E. students not exceed the staff allowed by the actual San Jose State College budget after salary savings and any other forms of budget limitations have been deducted; and be it,

RESOLVED: that if applicants for admission and/or readmission must be denied due to lack of budgeted teaching faculty, or due to the non-availability of competent teaching faculty, students in the following categories will be denied admission in the order listed: (1) graduate students (unspecified) not accepted into credential, certificate, or master's degree programs; and (2) undergraduate students as determined by the appropriate admissions policy; and, further be it

RESOLVED: That this resolution be forwarded to the Academic Senate, to the Chancellor, and to the Board of Trustees of the California State Colleges.
