SPECIAL MAJOR

S 68-18

Special Major (oriented to fit special needs): The student may have a definite educational or vocational objective for which a specific major is not listed. If so, he may consult with the Dean of Undergraduate Studies, who will, if he approves, authorize the student to indicate "Special Major" on his application for admission or change of objective card. The Dean of Undergraduate Studies will direct the student to an appropriate adviser, who will assist the student in planning his program and supervise his progress.
