

SAN JOSE STATE UNIVERSITY ACADEMIC SENATE

2016/2017

Agenda

May 1, 2017, 2:00 pm – 5:00 pm

Engineering 285/287

- I. **Call to Order and Roll Call:**
- II. **Approval of Minutes:**
Senate Minutes of April 10, 2017
- III. **Communications and Questions:**
 - A. From the Chair of the Senate
 - B. From the President
- IV. **State of the University Announcements:**
 - A. Statewide Academic Senators
 - B. Associated Students President
 - C. Provost
 - D. Vice President for Student Affairs
 - E. Vice President for Administration and Finance
 - F. Chief Diversity Officer
- V. **Executive Committee Report:**
 - A. Minutes of the Executive Committee –
Executive Committee Minutes of April 3, 2017
 - B. Consent Calendar – None
 - C. Executive Committee Action Items –
- VI. **New Business:**
- VII. **Unfinished Business:**
- VIII. **Policy Committee and University Library Board Action Items (In rotation)**
 - A. Organization and Government Committee (O&G):
 - B. University Library Board (ULB):
 - C. Curriculum and Research Committee (C&R):
AS 1651, Policy Recommendation, Research, Scholarship, and Creative Activity: Advisor-Student Relationship, Sponsored Projects, and Proprietary RSCA and Issues of Confidentiality (Final Reading)

***AS 1652, Policy Recommendation, Organization of the Program
Planning Process at San José State University (First Reading)***

***AS 1653, Policy Recommendation, SJSU Graduate and Undergraduate
University Learning Goals (First Reading)***

D. Instruction and Student Affairs Committee (I&SA):

AS 1649, Policy Recommendation, Registration Priority (Final Reading)

E. Professional Standards Committee (PS):

***AS 1646, Policy Recommendation, Selection and Review of Department
Chairs (Final Reading)***

IX. Special Committee Reports:

Faculty Recruitment Update by the AVP of Faculty Affairs, Senator Elna Green,
Time Certain: 2:45 p.m.

Athletics and FAR Presentation by Professor Annette Nellen, Co-Chair of the
Athletics Board, Eileen Daley, Sr. Associated Athletics Director,
Jacquelyn Duysen, Director of Compliance, and the Faculty Athletics
Representative (FAR), Sen Chiao, **Time Certain: 4:00 p.m.**

X. Adjournment:

2016/2017 Academic Senate

MINUTES
April 10, 2017

I. The meeting was called to order at 2:05 p.m. and roll call was taken by the Senate Administrator. Forty-five Senators were present.

Ex Officio:

Present: Kimbarow, Van Selst, Lee,
Sabalius, Perea

CASA Representatives:

Present: Schultz-Krohn, Shifflett, Grosvenor, Sen, Lee
Absent: None

Administrative Representatives:

Present: Faas, Papazian
Absent: Blaylock, Feinstein,
Wong(Lau)

COB Representatives:

Present: Reade, Rodan
Absent: Campsey

Deans:

Present: Stacks, Jacobs, Green,
Schutten

EDUC Representatives:

Present: Mathur, Laker

Students:

Present: Spica, Tran, Torres-Mendoza
Absent: Balal, Caesar

ENGR Representatives:

Present: Chung, Hamedi-Hagh

Alumni Representative:

Present: Walters
Absent: None

H&A Representatives:

Present: Frazier, Grindstaff, Ormsbee
Miller, Khan, Riley

Emeritus Representative:

Present: Buzanski
Absent: None

SCI Representatives:

Present: White, Cargill, Boekema
Absent: Kaufman

Honorary Representative:

Absent: Lessow-Hurley

SOS Representatives:

Present: Peter, Wilson, Trulio, Hart

General Unit Representatives:

Present: Matoush, Higgins, Trousdale,
Kauppila

II. Approval of Academic Senate Minutes—

The minutes of March 13, 2017 were approved as written (45-0-0).

III. Communications and Questions –

A. From the Chair of the Senate—

Chair Kimbarow announced that the Board of Academic Freedom and Professional Responsibility (BAFPR) is holding a Freedom Forum on April 12, 2017 in MLK 225 from noon to 1:30 p.m. Senators were encouraged to attend.

The President's Inauguration Ceremony occurs on May 4, 2017 at 9:30 a.m. on Tower Lawn. Regalia for faculty is being paid for by the university.

Chair Kimbarow reminded Senators that the new Senate takes over on May 15, 2017 and he urged Senators to consider running for one of the Senate Officer positions. The election for these seats will be on May 15, 2017 from 4 p.m. to 5 p.m. during the first meeting of the 2017-2018 Academic Senate.

B. From the President—

President Papazian spent last week with our Alumni Team in New York and Washington D.C. These were some pretty extraordinary alums. It was great to see that kind of Spartan pride clear across the country.

President Papazian is aware that some people are still concerned about safety issues. The President made a pledge in the fall that she would share incidents with the campus and has kept that pledge. The campus has issued more alerts, and VP Faas continues to work on implementing the safety plan. However, we need to be aware of our surroundings and we all need to work together.

The President encouraged Senators to attend the Inauguration and to participate in the events that lead up to it. It is a great celebration that represents the values we all share.

The President urged Senators to wear their regalia at commencement. Commencement is really about the students. The students care about the faculty that impacted their lives and want to see them at the ceremony. The President asked why Commencement is on Memorial Day weekend and no one knew why. The President asked if anyone wanted it on Memorial Day weekend and no one wanted it on that weekend. The President said she would be looking into changing the date of the event. The President will also be looking into condensing the activities surrounding Commencement. Right now it takes a month to six weeks and that is really drawn out. The President will look about how we can do it in a way to honor the university, but also allow students to walk across the stage and be recognized.

President Papazian will be leaving a little early today in order to meet with the Mayor. They will be go over some things such as the Farmer's Program and how San José State could be involved in that in terms of providing pipelines for San José students. They will also be talking about the library and some of the ways the library could be reorganized to have space for the public and students.

IV. State of the University Announcements. Questions. In rotation.

A. Vice President of Finance and Administration – No report.

Questions:

Q: There are labels on all the furniture in the hallways in Clark Hall again for removal. I thought that had been resolved.

A: The Fire Marshal has inspected and for safety reasons we cannot have benches in the hallways. We are looking for ways to address the needs of faculty that have students wait a while to see them. On the fourth floor there are some areas where

seating is possible and FD&O is working on that.

B. Vice President for Student Affairs – Not present.

C. Associated Students President –

On March 1, 2017 students had a walkout to protest the tuition increase. On March 21, 2017 a smaller group of students again had a walkout to protest the tuition increase, and then went to Long Beach, CA to the Board of Trustees meeting. Students are really looking for a sustainable model for free public education similar to what is being done in New York. It is not that students want to decrease the quality of education. Students just want to work for free public education. Sometimes there are some misunderstandings between students and faculty about these issues, but the biggest push is to get free public education for all.

From 5 p.m. to 7 p.m. today (April 10, 2017) AS is having debates for the incoming student government. Right after that voting will commence and close on April 13, 2017 at 8 a.m. The new board will be announced at noon on April 13, 2017.

The Spartan Showcase will be held on April 19, 2017 in the Student Union. This event will showcase all the work done by student organizations that receive funding through student fees.

AS has \$82,000 in scholarships to award and applications will close on May 1, 2017.

AS will be hosting a "Diversity Day" on April 27, 2017 from noon to 3 p.m. in the 7th Street Plaza.

On May 2, 2017, AS will send a few students to Sacramento to lobby against student tuition increases and also lobby for increased funding.

Other than these things, the AS Board is focusing on transitioning in the new Board of Directors.

Questions:

A member requested that Chair Kimbarow forward Senators the information on the AS Scholarships when he sends the recap of events from this Senate meeting out to all faculty. That way faculty can share with their students.

D. Chief Diversity Officer (CDO) – No report.

E. CSU Statewide Senators –

The Academic Senate California State University (ASCSU) met on March 16-17, 2017. Several resolutions were passed including a request that we stop using

equivalencies for Intermediate Algebra, support for the \$48 fix reclaiming California's Master Plan for Higher Education, support for graduate education in the CSU, and support for CSU Deferred Action for Childhood Arrivals (DACA) students. The ASCSU also adopted positions on numerous legislative actions. The ASCSU also passed a resolution opposing President Trump's Executive Orders on travel.

The final thing discussed was the Chancellor's Office policy on Intellectual Property. There was a lot of consternation and concern from the faculty on the ASCSU. The ASCSU and campuses were given a 60-day deadline for responses to the proposed policy. The ASCSU was able to get a two-week extension to that so responses are due in 74 days. According to the Chancellor's Office, Intellectual Property is something that is subject to bargaining only and faculty should not have input into it unless they are sitting at the bargaining table. The ASCSU doesn't quite feel that way about it. Senator Lee highly recommends that all Senators read the proposed Intellectual Property policy.

F. Provost – No report.

V. Executive Committee Report –

A. Executive Committee Minutes –

EC Minutes of March 6, 2017 –

EC Minutes of March 20, 2017 –

Senator Van Selst commented that the minutes were a little sparse. Chair Kimbarow said he would look into it. [Senator Van Selst mistook the agenda for the minutes.]

Senator Buzanski expressed concern about the second paragraph from the end of page 1 on the March 20, 2017 minutes. There is a statement that says, "This is where a new VP of Research and Innovation position could be very helpful in moving along these type of issues." In the last 20 years, the number of top level administrators has increased phenomenally while at the same time the ratio of faculty to FTEF has declined. In other words, fewer faculty are teaching more students than ever before. There are many good arguments on behalf of why we have administrators, but the question is whether some monetary savings might be accomplished by having lower level MPPs handle some of these things. President Papazian responded that we have struggled to maintain the numbers of faculty we need to have. It isn't a matter of one or the other, faculty or administrators. The President is 100% committed to increasing the faculty. However, we need to be thoughtful and strategic and really look at whether a position is really needed. Perhaps if we were in a different location this position wouldn't be needed, but we are in Silicon Valley and surrounded by global business and industry and world class research is going on. If we decide to go in this direction it will be because there is a strategic benefit for that particular position.

Senator Rodan asked if it would be possible to have consultation with faculty before

these positions are created instead of afterward? President Papazian responded that consultation had already begun with faculty on the Executive Committee. However, positions are a management decision to achieve certain ends and there has to be accountability etc. When it is a position that has tremendous synergy with faculty it is only wise to get faculty input. The President is having these conversations and will continue to have them with the Executive Committee and faculty, but ultimately she must make the decision on how to structure the university to achieve our goals. President Papazian commented that SJSU is quite lean when it comes to the numbers of MPPs as compared to other institutions, but we are a campus of 35,000 students and the second largest research enterprise in the CSU so we must make sure that is supported, because there are implications if you don't treat that right in terms of federal law and expectations. Senator Peter suggested that what might be helpful is to see the statistics comparing our MPPs to our faculty numbers.

B. Consent Calendar –

There was no dissent to the consent calendar of March 13, 2017.

C. Executive Committee Action Items: None

VI. New Business – None

VII. Unfinished Business: None

VIII. Policy Committee and University Library Board Action Items. In rotation.

A. Curriculum and Research Committee (C&R) –

Senator Mathur presented *AS 1651, Policy Recommendation, Research, Scholarship, and Creative Activity (RSCA): Advisor-Student Relationship, Sponsored Projects, and proprietary RSCA and Issues of Confidentiality (First Reading)*.

In reviewing S94-8, which is our current 23-year-old policy on RSCA, we noted that many provisions of the policy are outdated. There are three main areas where the policy is outdated. First, the sources of funding that are delineated in S94-8 are no longer available, have been renamed, or have been allocated to different offices or funding streams. For example, assigned time is collectively bargained and offered through the Office of Faculty Affairs and really can't be modified through university policy. The second area where the policy is outdated is the regulations responsible for research that have changed. The third area changed is propriety research and this section needs to be expanded to include additional information and guidelines.

In revising the policy, the C&R Committee consulted with the Campus RSCA Advisory Committee, the Office of Research, the UCCD, the Deans and Associate Deans, the Office of the Provost, and University Counsel. C&R received a lot of feedback and all of it was considered.

Questions:

Q: On line 211, it specifies that the Principal Investigator will be responsible for ensuring all the university forms, and certifications are completed in a timely manner. Would the committee consider drawing out the requirement that the Principal Investigator have their IRB/Human Subjects certification current and say that explicitly?

A: You must have the certification before the study can be submitted right now, but the committee will consider being more specific.

Q: Since these students are in a subordinate position, how do they know what recourse they might have if there is an issue?

A: The university does have a standard process for students if they have grievances or issues by going through the Student Fairness Committee. When we onboard new faculty that could be an opportunity for faculty to provide students they will be working with this kind of direct information, and we could also encourage the Office of Research to do more outreach to these students to ensure they know what avenues are available to them.

Q: Our current policies restrict confidential research, and I don't see the same restrictions in this policy. The nondisclosure agreement (NDA) component describes what nondisclosure agreements are and when they are appropriate, but I'm not seeing when they aren't appropriate.

A: In developing this section, we closely consulted current university policy S69-12, which talks about classified research. Within that older policy, the distinction between classified and confidential is not clear. We wanted to maintain the prohibitions for classified research, but delineate it from confidential and proprietary research. The university itself does not have any prohibitions against confidential research other than as outlined in the current university policy. However, we do have some prohibitions regarding proprietary research which is where the NDAs come into play. We carefully consulted with university counsel and we wanted to be as open as possible about how NDAs could be used, but we weren't sure it would be valuable for faculty to say how they can't be used because those might change over time.

Q: Would the committee consider making the second paragraph under I.B. the first paragraph and turning the first paragraph into principles?

A: The committee will consider it.

B. Instruction and Student Affairs Committee (I&SA) –

Senator Miller presented *AS 1648, Policy Recommendation, Graduate Student Revalidation of Courses that Exceed the 7-year Limit (Final Reading)*.

Senator Frazier presented an amendment to strike, "It must not necessarily though require recollection of all of the material in the original class;". And to move, "; thus, administering an exam similar to the original final exam would not be warranted" to line 73 starting after "material." Senator Rodan presented an amendment to the Frazier Amendment to change, "; thus, administering an exam similar..." to read, "; thus, administering an exam not necessarily similar...". **The Senate voted and the Rodan**

Amendment to the Frazier Amendment passed (31-2-6). The Senate voted and the Frazier/Rodan Amendment passed (24-7-5). Senator Mathur presented an amendment to strike lines 62 and 63 which reads, "The exam must be a rigorous one, invariably requiring studying on the part of the student." The Senate voted and the Mathur Amendment failed (1-33-2). **Senator Van Selst presented an amendment that was friendly to the body to add "appropriately" before "rigorous" to the end of line 62.** Senator J. Lee presented an amendment to strike the word "seminar" in line 77. **The Senate voted and the Lee Amendment passed (24-8-5). The Senate voted and AS 1648 passed as amended (36-0-1).**

Senator Miller presented *AS 1649, Policy Recommendation, Registration Priority Policy (also Amendment A to University Policy S73-4) (First Reading).*

This policy reconfiguration is largely a function of needing to address the new California promise. If you look on page 4 under rationale it gives details of Senate Bill 412, which defines the California Promise Program and legislates the requirement of priority registration for California Promise students. In terms of this policy, not much else has changed from the original policy, F14-1. There are a couple of other changes under section 2.0. Honors on acceptance and EOP students have been removed from the priority registration categories in section 2.0. There were so many students receiving honors on acceptance that it did not mean anything any longer. EOP students are registered during orientation now, so there is no need to give them priority registration.

Questions:

Q: What are coordinators and who are they?

A: Good question, the committee will define what this is.

Q: In section 3.4 it says the Student Success Committee will determine which category each applicant group qualifies for and shall notify the coordinator of the group on the granting, extending, or denying of priority registration. It seems that the policy lays this out so why do you need a group to explicitly do something that is laid out in policy?

A: The committee will consider this.

Q: Would the committee consider changing Frosh to Freshmen?

A: The committee will consider this.

Q: On line 68 could you clarify where the ROTC falls in priority registration, because they are not technically veterans?

A: The committee will clarify.

Senator Miller presented *AS 1650, Policy Recommendation, Codification and Revision of Undergraduate Student Honors (First Reading).*

The first change in this policy has to do with when we are determining semester honors. The current process is somewhat elaborate. A student can earn honors if they receive it in two out of three semesters. This poses a few challenges. It is complicated for our administrative offices, but also the committee felt Freshmen that are doing well should be able to get honors and they cannot if they have to wait three semesters. The other

major change is that the committee has removed honors on entrance due to the number of students that were receiving it. Again, there was a feeling in the committee that honors should be based on how students are doing here and not how they were doing before they arrived here. Then there was the creation in 4.0 of a new category of honors, which is honors in a special course sequence. This is an opportunity for our students in an honors program to earn honors, and also for students that take a sequence of courses that might be across departments. Also, Summa Cum Laude has been changed to a 3.9 gpa or above. That brings our numbers more in line with other institutions.

Questions:

Q: I think the sequence is a much needed addition. On line 206 it states that the SCS honors status will be shown on the transcript with a notation explaining what the designation means, so has the committee confirmed that the Registrar can actually put that designation on the transcript, and where will it be located on the transcript?

A: The committee will consider this. The Registrar is on the committee, so we will ask her.

Q: Regarding the President's Scholar and Dean's Scholar has there been any analysis of how many more students will be earning the Dean's and President's Scholar designations? The second question is with regards to the changes to the latin honors, does the designation happen when the student graduates, or will it occur when they earn the designation?

A: We do think there will be some increase in the Dean's and President's Scholar designation. The committee felt this was offset by the need to recognize Freshmen that achieve honors. As to your second question, I don't know about the latin designation, but I will bring this back to the committee.

Q: With the removal of the honors at entrance, those students that were invited into the university honors program based on having honors at entrance won't have that designation any longer, so how will that work?

A: It would seem to me that the same process for identifying the honors at entrance students could be used to identify those students to be invited into our honors program.

Q: Could the special course sequences possibly be course sequences being developed in the general education area as well as outside general education?

A: The committee wanted to create the opportunity to be honored, but wanted to leave the course details to be worked out. We felt this was more the purview of the curriculum committee.

Q: There are a couple of issues that I am troubled by. Pertaining to line 63 it says a minimum of 12 semester units, so this excludes anyone that isn't taking a full load from any kind of honors. I'm not sure this is fair. Also, regarding line 68—report delayed, what if the report is delayed because the faculty member hasn't entered the grades on time and the student is penalized? I wanted to get a sense of how the Senate feels about this.

A: The report delayed is something the committee struggled with. There has to be a cutoff point to make that happen. We had important conversations regarding both issues, so it would be helpful if Senators send feedback to the committee.

C. Professional Standards Committee (PS) –

Senator Peter presented *AS 1530, Sense of the Senate Resolution, Requesting Changes in the System Wide Proposed Intellectual Property Policy (Final Reading)*.

Senator Peter presented an amendment that was friendly to the body to strike the word "a" before the word "one" on line 336. **The Senate voted and AS 1646 passed as amended (35-0-0).**

Senator Peter presented *AS 1647, Policy Recommendation, Rescinding and Replacing F97-7 on Privacy of Electronic Information (Final Reading)*.

Senator Torres-Mendoza presented an amendment that was friendly to the body to change the "e" in "Jose" to "é" in section 1.5, first line. **The Senate voted and AS 1647 was approved as amended (36-0-1).**

Senator Peter presented *AS 1646, Policy Recommendation, Selection and Review of Department Chairs (Final Reading)*.

Senator Peter made a motion to return the resolution to committee due to receiving 11 amendments from the deans this afternoon. **The Senate voted and the motion passed (35-0-1).**

D. Organization and Government Committee (O&G) –

Senator Shifflett presented *AS 1635, Policy Recommendation, Selection and Review of Administrators (Final Reading)*. Senator Frazier presented an amendment that was friendly to the body to add ", ideally a faculty member," after "committee chair" in lines 100, 171, and 224. Senator Shifflett presented an amendment that was friendly to the body to strike "goals and recommendations arising from prior performance reviews (when such has occurred)," in line 391; to strike "(a)" in line 400; to strike ", which can include performance goals set by the appropriate administrator and (b) appraisals of performance" after the words "appropriate information" on lines 400, 401, and 402. Senator Tran presented an amendment to strike, "This could include the appointment of up to two additional members while maintaining the requirement that a majority of members be faculty" on lines 162-164. The Senate voted and the Tran Amendment failed (2-32-2). **The Senate voted and AS 1635 passed as amended (31-3-3).**

E. University Library Board (ULB) – None.

IX. Special Committee Reports -- None.

X. Adjournment – The meeting adjourned at 4:35 p.m.

Executive Committee Meeting

April 3, 2017

12-1:30, ADM 167

Present: Peter, Shifflett, Schultz-Krohn, Mathur, Frazier, Lee, Feinstein, Kaufman, Kimbarow, Perea, Riley, Wong(Lau), Faas

Absent: Papazian, Blaylock

1. The minutes of March 20, 2017 were approved (12-0-0).
2. There was no dissent to the consent calendar of April 3, 2017.
3. Updates:

a. **From the Provost:**

The Dean of the College of Education Search is underway. The committee hopes to have three or four finalists visit the campus in the next couple of weeks. The committee's recommendation will then be sent to the Provost by the first week of May 2017.

The Provost will announce the Interim Dean of the College of Humanities and the Arts at the end of April 2017. The Provost hopes to have a draft of the position description approved by July 1, 2017, and have the search sent out to the search firm over the summer. The new dean should be on board by early Spring or July 1, 2018 at the latest.

b. **From the Vice President of Administration and Finance (VPAF):**

The VPAF is still looking for a suitable AVP of FDO. There have been four failed search attempts. They thought they had a suitable candidate recently, but it did not work out. However, the VPAF has reached out to his contacts in the local community and has two viable candidates that he will be contacting.

The VPAF will be starting a search in June for a replacement for Josee Larochelle. He will be focusing on someone with strong CSU experience.

The President's blog has an article that the VPAF wrote regarding BART.

c. **From the CDO:**

The CDO recently attended a National Chief Diversity Officer's Conference.

Incoming Freshmen are receiving 2 hours of Diversity training during Freshmen Orientation that includes Title IX and Diversity Issues. Leadership and Survival Training is also a big benefit to students during orientation.

d. **From the AS President:**

Many students and AS Directors went to the March 21, 2017 Board of Trustees (BOT) meeting to protect the proposed tuition increases. Nevertheless, the BOT passed the tuition increase. The next step for AS is to lobby Sacramento.

There will be student debates for the AS President and Board of Director seats after the Senate meeting on April 10, 2017.

Admitted Spartans Day is April 8, 2017.

AS will be hosting a Diversity Day on the 7th Street Plaza on April 27, 2017 from noon to 3 p.m.

e. **From the CSU Statewide Senate:**

There is a new Executive Order pertaining to Special Session classes.

The ASCSU has not issued their Sense of the Senate Resolution yet on Intellectual Property. The deadline was extended by two weeks.

At the ASCSU meeting Zoom flat lined. The committee discussed being tied to WebX and not Zoom. If you are initiating a call you must pay for it with Zoom. The Provost will look into this.

f. **From the Organization and Government Committee (O&G):**

O&G will bring the Selection and Review of Administrators policy for a final reading at the April 10, 2017 meeting.

g. **From the Professional Standards Committee (PS):**

PS will bring the Selection of Chairs and Directors policy for a final reading at the April 10, 2017 meeting. Under the old policy the chair search had to fail in order for a department to request an external chair search. This has been changed under the new policy to allow the department to ask the Dean for an external search at the onset.

h. **From the Chair of the Curriculum and Research Committee (C&R):**

C&R will bring a policy resolution on Research Scholarship and Creative Activity (RSCA) to the April 10, 2017 Senate meeting.

C&R has closed the referral to allow Graduate Students to be exempt from requiring the WST as a prerequisite for 100W. The committee determined a policy was not needed, and that GUP can make this exemption procedurally.

C&R is also working on a draft department name change policy.

C&R has run into a "hiccup" regarding the Internship Policy having to do with Safeclip-Student Liability Insurance.

i. **From the Instruction and Student Affairs Committee (I&SA):**

I&SA will be bringing the Priority Registration and Honors Policies to the Senate at the April 10, 2017 meeting.

4. State Fire Inspection:

The state fire inspection has raised some issues and concerns. Some buildings have benches in areas that are not allowed and they will have to be removed. Safety is our priority.

5. Intellectual Property:

The CSU proposes to replace all campus policies on Intellectual Property with one CSU policy. We were given 60 days to provide comments and feedback. That deadline was extended two additional weeks. The UC policy on Intellectual Property is much better than the CSU version. There are issues with regard to content and process. The CSU policy appears to allow the CSU to claim ownership of curricular material. The PS Committee will draft a resolution for the April 10, 2017 Senate meeting.

6. The meeting adjourned at 1:38 p.m.

These minutes were taken and transcribed by the Senate Administrator, Eva Joice on April 11, 2017. The minutes were edited by Chair Kimbarow on April 11, 2017. The minutes were approved by the Executive Committee on April 17, 2017.

6
7
8
9 **Policy Recommendation**
10 **Selection and Review of Department Chairs and Directors**
11

12
13
14 **Resolved:** That S14-8 be rescinded and replaced with the following policy, effective
15 immediately for all new nominations and reviews.

16
17 *Rationale:* *This revision of S14-8 incorporates the voting procedures for nominating*
18 *Department Chairs and Directors that were formerly only available in a*
19 *separate policy. The need to consult two separate policies each time a*
20 *department nominates a Chair has led to confusion and procedural errors in*
21 *the past. In addition, the policy has be reformatted for easier use and a*
22 *number of corrections have been incorporated at the suggestion of the*
23 *University Council of Chairs and Directors and the Deans. Among those*
24 *changes is a reordering of the policy to align chronologically with the stages*
25 *of a Chair’s nomination, election, evaluation, and possible removal.*
26

27
28
29
30
31 **Approved:** April 24, 2017

32
33 **Vote:** 8-0-0

34
35 **Present:** Peter, Green, White, Lee, Reade, Caesar, Hamedi-Hagh, Caesar

36
37 **Absent:** Kauppila, Hwang

38
39 **Financial Impact:** No direct impacts. It is possible that this policy, by clarifying
40 process, could result in some savings.

41
42 **Workload Impact:** No direct impacts, although the clarification of methods for selection
43 and review of department chairs could potentially prevent some time
44 consuming failures of process.

POLICY RECOMMENDATION

Selection and Review of Department Chairs and Directors

1. INTRODUCTION

1.1. Preamble

Department Chairs are the leaders of communities of faculty as well as the most important stewards of the mission of the University at the local level. Their effectiveness depends upon the continual support of the faculty they represent. The selection of a Department Chair is therefore the most important collective decision of department faculty. This policy is designed to assure that Chairs are chosen and reviewed in a manner that assures their continual legitimacy and effectiveness as they carry out the numerous functions assigned to them by university policies and the Collective Bargaining Agreement.

1.2. Definitions

1.2.1. Throughout this policy, the term “Chair” refers both to Chairs of Departments and Directors of Schools, while the term “Department” refers both to Departments and to Schools.

1.2.2. Departments elect a “nominee” to be department Chair; the President appoints a nominee to become Chair. Hence department elections are a nomination process with the outcome of choosing a “Chair nominee” and are called “nomination elections.”

1.2.3. The terms “Professor” and “Associate Professor” are also understood to include the equivalent titles in faculty disciplines that use alternative names, such as librarians and counselors.

1.2.4. This policy uses the generic term “chair” to refer collectively to all categories of chairs regardless of the manner of nomination and appointment. When there is a need for greater differentiation, the policy will refer to “acting chair” and “interim chair” as defined later in the policy, and “regularly appointed chair” to refer to a chair who has been nominated by the department and appointed by the President for the standard four year term.

2. QUALIFICATIONS

Chairs should preferably be Professors but may be Associates, and should have earned rank and tenure prior to the time the appointment to Chair would become

100 effective. Exceptions should only be made in rare instances and for compelling
101 reasons.

102 3. DEPARTMENT NOMINATING PROCESS

103 Every four years, the department faculty shall identify a nominee for Department
104 Chair by secret ballot vote following these procedures. These are also the
105 procedures for departments to recommend candidates for role as acting Chair (in
106 section 10 below.)
107
108
109

110 3.1. Deans and departments should communicate about transitions as early as
111 possible to allow for a collegial and orderly process. The Chair's job
112 description—which should include the fraction of assigned time to be
113 provided to the Chair--should be developed by the Dean in consultation with
114 the Department.
115

116 3.2. College Election Committee. The College will create a College Election
117 Committee that will consist of three individuals: 1) The Dean or the Dean's
118 designee, 2) a member of the College RTP committee (chosen by the
119 committee from a department other than the one holding the nomination
120 election), and 3) one tenured faculty member from the department (chosen
121 by the department tenured and tenure track faculty from among those
122 department faculty who are not candidates.)
123

124 3.3. Responsibilities of the College Election Committee. The College Election
125 Committee shall see that the department is informed of the requirements of
126 this policy, shall (with the help of Faculty Affairs) interpret and explain the
127 policy to the department when questions arise, shall count and certify the
128 votes, and shall see that the results are delivered to the President and to the
129 Department in the appropriate formats.
130

131 3.4. Charging the Department. The Dean (or, at the Dean's option, the College
132 Election Committee) should attend a Department meeting at the beginning
133 of the nomination process to provide this policy and the Chair's job
134 description and fraction of assigned time, and to explain the process for
135 nominating a Chair. All persons who are not members of the Department
136 should depart before deliberations begin, unless specifically invited to
137 remain by the majority vote of the faculty present.
138

139 3.5. Open meeting. A meeting shall be held to begin the election of a nominee
140 to serve as Department Chair. The department may determine the nature
141 and medium of the meeting according to its own preferences, but the
142 meeting must be open to all faculty in the department and publicized a
143 minimum of one week in advance.
144

145 3.6. Decision on external search. The department may decide at this stage,
146 through normal voting procedures, to seek permission to search for an
147 external chair (as per section 4.1 below) instead of proceeding immediately
148 with a normal nominating election. Should permission be denied the

149 department should proceed with the normal process to nominate a
150 department Chair.

- 151
- 152 3.7. Faculty may suggest names to appear on the ballot for the nominating
153 election. Nominated persons shall accept or decline nomination.
154 Candidates will be given the opportunity to make statements and take
155 questions from department faculty.
156
- 157 3.8. The nominating election. All faculty may then vote by secret ballot
158 (proportional votes for part-time faculty) on all candidates proposed and
159 willing to serve. Balloting must be available for 5 working days.
- 160 3.8.1. If there is just one candidate, balloting must still occur, with a choice
161 provided to “recommend” or “do not recommend” the candidate.
- 162 3.8.2. If there are two or more candidates, balloting will provide a choice
163 between the candidates and a choice “do not recommend any
164 candidate.”
- 165 3.8.3. If an election with three or more candidates fails to produce a majority
166 for any candidate, there shall be a second round of balloting between
167 those two candidates who received the most votes in the first round.
168
- 169 3.9. Counting the votes. The college election committee will meet to count
170 votes. The candidates will be notified of the time and place of the count at
171 least one day in advance, and each may send one observer (other than
172 themselves). The committee is responsible for an accurate count and
173 review of ballots. The committee will assure that balloting was secret, that
174 votes are entered in the correct category, and that proper proportions are
175 applied. The results shall be certified (signed) by the election committee.
176
- 177 3.10. Forwarding the results of the nominating election. Only the name of a
178 candidate who receives a majority of votes cast by the tenured and
179 probationary faculty shall be recommended to the President via the College
180 Dean as the nominee of the department.¹ The names of candidates who
181 were not recommended by the department, together with all vote totals,
182 shall also be forwarded to the President to provide context for the
183 recommendation. This shall include a statement of the vote of all faculty,
184 broken down into two categories – vote by tenured/tenure track faculty and
185 by lecturers -- including the actual number of votes cast in each category. If
186 the final vote total from part-time faculty contains a fraction, it shall be
187 rounded to help preserve anonymity.
188
- 189 3.11. Distributing the results. The department voting results shall also be
190 distributed to the faculty from the relevant department.
191
- 192 3.12. Second round nomination elections. If a department is unable to nominate a
193 Chair by a majority vote of the probationary and tenured faculty, it may
194 continue to try to obtain a nominee by repeating the process if they are
195 willing and the Dean determines that there is sufficient time. Otherwise the
196 situation will be resolved via section 6 “Failure to Obtain...”
197

4.1. Request for an external search. An external search is a search in which candidates from outside San Jose State University are invited to apply to be hired as a tenured faculty member and as department Chair.

Department faculty may request an external search for department chair. A department request for an external search should take the form of a majority vote of the department (following normal procedures for department voting rights). Such requests are not automatically granted.

4.2. Procedures for an external search. Successful completion of an external search for a department Chair requires coordination of two separate tasks: the appointment of a new faculty member in accordance with the appointment policy and the recommendation to the President of a Chair nominee in accordance with this policy. To expedite the successful conclusion of such a search, departments may combine some procedures that are common to both processes as outlined below. Departments should determine which of these three alternatives they will use by majority vote (following the normal procedures for department voting rights), and they must do so prior to the start of a search. Whichever method the department adopts, the recruitment committee must conform to the normal requirements of the appointments policy.

4.2.1. Departments may designate all tenured and tenure track faculty as a recruitment committee “of the whole” so that the appointment recommendation and the nomination recommendation are coterminous. When this method is chosen, the committee of the whole must provide lecturers with the opportunity to provide confidential feedback on the search prior to final recommendations. A department may only use this method when there are more tenured faculty than probationary faculty. If it chooses this method, the normal prohibition of faculty serving on a personnel committee evaluating faculty of higher rank is suspended.

4.2.2. Departments may use separate processes for the appointment and for the nomination functions associated with an external search for a department Chair. Using this method, a smaller recruitment committee makes a recommendation under the normal appointment policy. Then the department as a whole votes to endorse or not to endorse the recommendation of the recruitment committee. For each candidate, the department’s endorsement must specify whether or not that candidate is acceptable as a Chair. If more than one candidate is acceptable, the department must rank them in order of preference. The department’s endorsement serves to nominate a candidate to be Chair, but should be accompanied by the recruitment committee’s report to justify the appointment. In the event of conflict between the recommendations of the recruitment committee and the department, the department makes the final recommendation as to who to nominate as its Chair, but may only nominate from among those candidates deemed to be acceptable finalists by the recruitment committee. When this method is chosen by a department, time must be budgeted to allow these procedures to take place at the conclusion of the search.

251
252 4.2.3. Departments may choose to delegate their prerogative to nominate
253 a Chair exclusively to their recruitment committee.
254

255
256 4.3. In conformity with the Appointments policy, an external nominee for Chair
257 shall be reviewed and must receive a favorable recommendation for tenure
258 from the appropriate personnel committee of the department before the
259 appointment can be completed.
260

261 5. APPOINTMENT

262
263 5.1. The President appoints and removes the Department Chair in consultation
264 with the Provost, College Dean, and department faculty. The term of the
265 appointment is normally four years.
266

267 5.2. Except in rare instances and for compelling reasons, the President shall
268 appoint a person recommended by the department faculty.
269

270 5.3. Technical details concerning the appointment of a Chair (appointment
271 letters, salary adjustments, etc.) will be coordinated by the Office of the
272 Provost.
273

274 6. FAILURE TO OBTAIN CHAIR NOMINEES AS DESCRIBED IN SECTIONS 3 275 (Nominations), 8 (Reappointment), and 10 (Acting)

276
277 Departments may be unable to successfully conclude a normal nomination for
278 Department Chair. This could be the case in a department with no senior
279 leadership qualified to be Chair, or no willing candidates. If a department fails to
280 reach consensus (majority vote of the tenured and probationary faculty) following
281 a normal nomination process (Section 3), the Dean shall consult with the faculty at
282 a department meeting to determine the best course of action. This could be either
283 the nomination of an interim or acting Chair, initiation of an external search,
284 extension of a prior interim appointment, or nomination of a non-departmental
285 interim Chair-- as per the relevant sections of this policy.
286

287 6.1. External Search. An external search may be requested as per section 4 of
288 the policy, although such requests are not automatically granted.
289

290 6.2. Extended interim Chairs. If there has been a failure to reach consensus,
291 and an interim Chair is serving and was not a candidate for Chair, the
292 interim Chair may be extended by six months to allow time for more
293 permanent solutions. Normally, a department should not have to operate
294 under interim leadership for more than one year.
295

296 6.3. Non departmental interim Chairs. In extreme cases, and only when all of
297 the aforementioned measures fail, the President may appoint a SJSU
298 faculty member from outside the department to serve as interim Chair,
299 after consultation with the College Dean and department faculty. External
300 departmental interim Chairs are subject to all the normal limits provided in
301 section 9. Consultation with the department faculty is normally done by
302 the Provost and Dean soliciting advice at a department meeting.
303

304 6.4. Extended interim Chairs. The extension of an interim appointment beyond
305 one year may endanger the principles of collegial governance and should
306 be avoided if possible. If this occurs the Organization and Government
307 Committee of the Academic Senate shall inquire into the reasons for the
308 situation and report its recommendations to the Senate and the President.
309

310 7. REVIEW OF DEPARTMENT CHAIRS

311
312 7.1. Timing of Normal Review: The Dean shall initiate the formal review of
313 each Department Chair during the fourth year of an incumbent's term,
314 unless the incumbent states that he/she will not be a candidate to
315 continue as Chair beyond the fourth year.
316

317 7.2. Early Review: Department faculty may initiate a formal review of the
318 Department Chair by submitting a petition to the Dean, provided that at
319 least one academic year has passed since the Chair's appointment or
320 previous review. The petition shall state simply that "The undersigned
321 faculty call for a prompt review of our Department Chair." If the petition is
322 signed by department faculty totaling more than 50% of the department
323 electorate, the College Dean will initiate a formal review of the Department
324 Chair. The petition should preferably be delivered early enough to permit
325 the review to be completed before the end of the current semester, but an
326 early review should always be completed within 40 duty days from receipt
327 of the petition. To determine if the petition exceeds the 50% threshold, the
328 signatures of both tenure/tenure track faculty and lecturers will be counted,
329 with the signatures of lecturers weighted according to the proportion of
330 their appointment. The Dean will announce the number of signatures and
331 whether the petition exceeds the threshold, but will keep the petition itself
332 and the signed names confidential from the incumbent chair.
333

334 7.3. Appointment and Composition of Review Committee: At the beginning of
335 the fourth year of the Department Chair's term, under the direction of the
336 College Dean, the tenured and tenure-track department faculty shall elect
337 from its ranks a peer review committee to evaluate the Department Chair's
338 performance². The review committee, in consultation with the College
339 Dean, will determine the procedures and scope of the review.
340

341 7.4. Criteria for Review: The review committee, in consultation with the College
342 Dean, shall specify the criteria for evaluating the incumbent's job
343 performance. The principal criteria shall be derived from the job
344 description that was provided to the Chair at the time of appointment. The
345 incumbent shall be asked to examine the criteria developed and to make
346 such comments or suggestions as may seem advisable.
347

348 7.5. Procedures for Review: The review committee, in consultation with the
349 College Dean, shall develop procedures for conducting the review. The
350 procedures shall be designed to secure appropriate information and
351 appraisals of performance from as many persons as may be feasible who
352 are knowledgeable of the incumbent's performance. If he/she so desires,
353 the incumbent shall be given an opportunity to provide the review
354 committee with a self-evaluation based upon the criteria developed by the
355 committee. The opinions and judgments received by review committees,

² See CFA/CSU Agreement Article 15

356 the deliberations and reports of such committees, and any accompanying
357 materials, shall be confidential.

358
359 7.6. Report of the Review Committee: At the conclusion of its evaluative
360 activities, the review committee shall prepare a written report embodying
361 findings and conclusions. The report of the review committee shall include
362 a statement of strengths found and improvements desired in the
363 incumbent's performance with respect to the evaluative criteria. All raw
364 data collected for review shall accompany, but not be part of, the review
365 committee's summary narrative. Before forwarding the final report to the
366 College Dean, the review committee shall:

367
368 7.6.1. Provide a draft copy of the narrative portion of the report to the
369 incumbent;

370
371 7.6.2. Provide the incumbent with an opportunity to meet with the review
372 committee in order to discuss the report;

373
374 7.6.3. Provide the incumbent with the opportunity to submit to the
375 committee a written statement which shall become part of the report
376 to the College Dean.
377

378 The review committee shall forward its final report to the College Dean.
379 The College Dean will discuss the findings with the Department Chair and
380 will report in general to the department faculty. On completion, the final
381 report from the review committee, additional evaluation by the College
382 Dean, and any response from the Department Chair will be forwarded to
383 the Provost.
384

385 7.7. Confidentiality. The review committee, college dean, and officers of the
386 University shall hold in confidence data received by the review
387 committee, its report, and accompanying materials.
388

389 8. REAPPOINTMENT OF A DEPARTMENT CHAIR 390

391 In order to serve one or more subsequent terms, the Department Chair must
392 proceed through the review process and regular nominating process.
393
394

395 9. SELECTION OF AN INTERIM CHAIR 396

397 An interim appointment occurs when a Department Chair's position has or will
398 be vacated and there is insufficient time or it is otherwise impractical to
399 complete the regular nomination process explained in Section I (Nominations).
400 The interim Chair serves only as long as required to complete the
401 appointment of a regularly appointed chair.
402

403 9.1. Appointment procedure. The President may make interim appointments
404 after consultation with the College Dean and department faculty, normally
405 by soliciting advice from as many faculty as possible at a department
406 meeting called for this purpose.
407

408 9.2. Interim Chair requirements. Interim appointments should normally be a
409 member of the department in which they will serve and they should be
410 tenured faculty members (see section 6 for exceptions.)

462
463

- 9.3. Transition to a regularly appointed Chair. While overseeing all the complex tasks of the department, the interim Chair's ultimate responsibility is to prepare the department for an orderly transition to a regularly appointed Chair. The interim Chair should serve until a regularly appointed Chair takes office, normally before the beginning of the next academic year when taking office in the summer or Fall, or by the beginning of the following Spring semester when taking office in the Spring. If the department cannot transition to a regularly appointed Chair within one year, the situation should be resolved under section 6 (Failure to Obtain) of this policy.
- 9.4. Technical details concerning the appointment of an interim Chair (appointment letter, salary adjustments, etc.) will be coordinated by the Office of the Provost.

10. SELECTION OF AN ACTING CHAIR

An acting appointment occurs when a Department Chair is on a temporary absence (illness, vacation, or leave) but is expected to return within a year. If the absence is less than one month, the Dean, in consultation (if possible) with the continuing Chair may determine that there is no need for an acting Chair. Otherwise, an acting Chair is appointed and serves only until the regularly appointed Chair returns.

- 10.1. Planned need for acting Chair. When the short-term absence of a Chair can be anticipated, the Department should nominate an Acting Chair using the procedures outlined in section 3 (normal nomination.)
- 10.2. Sudden need for acting Chair. When there is insufficient time or it is otherwise impractical to complete the regular nomination process explained in section 3, an Acting Chair should be designated using the procedures outlined in section 9 (interim.)
- 10.3. Limit on length of service. An Acting Chair should not serve more than one full academic year, and possibly the summer before or after the academic year. A Chair who is absent for more than one year should be replaced.
- 10.4. Technical details concerning the appointment of an acting Chair (appointment letter, salary adjustments, etc.) will be coordinated by the Office of the Provost.

11. REMOVAL OF DEPARTMENT CHAIR

In rare circumstances it may become necessary to remove a Department Chair prior to the expiration of the four year term. There are two possible situations in which a Chair may be removed.

- 11.1. Administrative removal. The administrative removal of a Chair previously recommended by the faculty of a department is a very serious matter, and should only be undertaken for compelling reasons. A Chair will be given an opportunity to meet with the Provost and Dean to defend his/her record prior to removal. Following removal, the President or Provost

464 should meet with the Dean and the faculty assembled in a department
465 meeting to announce the action and solicit advice on the transition.
466 Replacement of the Chair should be initiated according to the procedures
467 in sections 3 or 9 of this policy.

468
469 11.2. Faculty initiated removal. Faculty may not initiate the removal of their
470 Chair unless a formal review has been completed within the previous six
471 months. (They may initiate such a review as per 7.2 of this policy.)
472 Following the conclusion of any faculty-initiated early review, the
473 department will vote to determine if their Chair should be recalled. A recall
474 vote will follow the same procedures as a vote to recommend a Chair
475 nominee as described in section 3 of this policy, save only that it requires
476 a vote of 2/3 of the tenure/tenure track faculty to forward a
477 recommendation to the President that the Chair be removed, with the
478 votes of lecturers also reported as per the above procedures. If removed,
479 replacement of the Chair should be initiated according to the procedures
480 in sections 3 or 9 of this policy.

7
8 **Policy Recommendation**
9 **Registration Priority**
10

11 **Legislative History:** Rescinds F14-1, Amends Section 2 of S73-4
12

13 Resolved:
14

15 **1.0 Scheduling of Registration**

16 Students shall be allowed to register in the following order:

- 17 ● Group 1: Specific Priority Categories (see 2.0 below)
- 18 ● Group 2a: Graduating seniors (those who have a graduation application on file
19 with an anticipated graduation date for the current or next semester) in the
20 California Promise program
- 21 ● Group 2b: Remaining graduating students (bachelors- and graduate-level
22 students who have a graduation application on file with an anticipated graduation
23 date for the current or next semester)
- 24 ● Group 3: Graduate students
- 25 ● Group 4a: Seniors in the California Promise program
- 26 ● Group 4b: Remaining seniors
- 27 ● Group 5: Second baccalaureate students
- 28 ● Group 6a: Juniors in the California Promise program
- 29 ● Group 6b: Remaining juniors
- 30 ● Group 7a: Sophomores and continuing frosh in the California Promise program
- 31 ● Group 7b: Remaining sophomores and continuing frosh

32 Students in Groups 2-7 will register on the basis of rotating alphabetical cycles within
33 each group.

34 Note: First time frosh registration is based on orientation. Incoming transfer students
35 have a registration date dependent on when they matriculate.
36
37

38 **2.0 Categories of Group 1: Specific Priority Students**

39 **2.1 Category A:**

- 40 ● Students who are required by external agencies such as the National
41 Collegiate Athletic Association, or by law, to receive priority. This
42 excludes students covered by SB 412, the California Promise program
43 unless they also fall under another group with required priority

44 registration. Priority registration for students in the California Promise
45 program is addressed in the regular registration as outlined in Section
46 1.0.

- 47 ● Students whose contributions to the university are recognized as being
48 so extensive that their graduation would be postponed by the amount
49 of time spent on their extracurricular duties.
- 50 ● Students serving on Senate committees that require student
51 participation in order to perform essential functions.
- 52 ● Students who are part of any group that has a contractual agreement
53 with SJSU to provide a full course load.

54
55 Groups in this category include

- 56 ● Accessible Education Center (AEC) students
- 57 ● AEC note takers
- 58 ● Associated Students Board of Directors
- 59 ● Student Fairness Committee members
- 60 ● NCAA Athletics
- 61 ● Guardian Scholars
- 62 ● Reciprocal Exchange students
- 63 ● Veterans (as per Cal. Educ. Code §66025.8)

64 This category does not require regular review by the Student Success
65 Committee, though review may be requested if/when circumstances
66 change.

67 68 2.2 Category B:

69 Students who would not otherwise graduate within a reasonable period of
70 time because they participate in an ongoing, university sanctioned activity that
71 meets all of the following criteria:

- 72 ● the activity significantly benefits the University;
- 73 ● the activity has a regularly scheduled class, event or practice offered
74 only at specific times that conflict with a vast majority of prime time
75 classes that are offered (i.e. 9:00 – 3:00 Monday through Thursday)
76 and cannot be moved outside of prime time;
- 77 ● participation at every class, event or practice is mandatory; the
78 sponsoring organization must establish a minimum GPA and progress
79 to degree criteria and monitor it each semester; mandatory meetings
80 must be set prior to the first day of the semester.

81 82 2.3 Category C:

83 Students enrolled in an integrated package of courses that meets all of the
84 following criteria:

- 85 ● covers at least four areas of the General Education Program

- 86
- involves being part of a cohort group of students from multiple colleges
 - requires enrollment together in a specified course sequence over multiple semesters.
- 87
- 88

89 Priority registration will be granted to students in this category beginning with
90 the second semester of enrollment.

91

92 **2.4 Category D:**

93 Students who are required by external scholarship granting agencies/donors
94 to meet progress toward degree milestones that are more rigorous than those
95 of the institution and/or whose benefits/eligibility to participate expire based
96 on time limitations of less than 6 years.

97

98 **3.0 Implementation – Approval and Continuing Approval**

99 3.1 It is the intention that no more than 10% of the FTES of SJSU be available for
100 priority registration under the policy.

101

102 3.2 The Accessible Education Center will review AEC students and note takers in
103 Category A each semester and provide an updated list.

104

105 3.3 Coordinators of all groups in Category B, C, and D who wish to apply for
106 priority registration on behalf of their group of students, including those that
107 currently hold such status, shall apply to the Student Success Committee for
108 continuation or granting of priority registration status.

109 Priority registration for groups of students in these categories normally shall
110 be awarded for periods of up to five years. The Student Success Committee
111 may authorize priority registration for a shorter time period, and when doing
112 so, will provide written justification describing concerns.

113 In the case of an application for continuing approval, the coordinator of each
114 currently approved group is responsible for resubmitting such an application
115 at least one full semester prior to the expiration of the previous granting of
116 priority registration.

117 In the case of an application for new approval, the coordinator of a group
118 seeking such approval must submit an application at least one full semester
119 prior to the requested implementation date.

120

121 3.4 The Student Success Committee shall determine which category each
122 applicant group qualifies for and shall notify the coordinator of the group
123 regarding the granting, extending, or denying of priority registration. The Chair
124 of the Student Success Committee must receive applications for fall priority
125 registration no later than April 1. The Chair of the Student Success
126 Committee must receive applications for spring priority registration no later
127 than September 1.

128

129 **3.5** An increase of more than 10% of the original number of approved students
130 approved for priority registration will automatically require a statement of
131 justification submitted to the committee no later than April 1 for fall semester
132 and no later than September 1 for spring semester registration. **This**
133 **requirement cannot apply to students participating in the California Promise**
134 **as state law mandates this program.**

135
136 **4.0 Submission of student names and SJSU ID Numbers to the Registrar’s Office**

137 Submission of student names and SJSU ID numbers to the Registrar’s Office for
138 groups of students receiving priority registration is the responsibility of the
139 coordinator of the group. Each coordinator is responsible for contacting the
140 Registrar’s Office for submission deadlines.

141
142 **Rationale:**

143 Senate Bill 412, passed on September 21, 2016, defines the California Promise
144 program and legislates the requirement of priority registration for California Promise
145 students. This program is available to frosh and to transfer students with an associate
146 degree for transfer. It facilitates a four year graduation rate for frosh and a two year
147 graduation are for transfers with commitments on the part of the university and the
148 student. One such commitment on the university side is priority registration. There will
149 be an increasingly larger percentage of students eligible for the California Promise
150 program as SJSU works to meet our CSU Graduation 2025 goals of a 35% four year
151 frosh graduation rate and 36% two year transfer graduation rate. This policy integrates
152 the priority registration for students in the California Promise program into the
153 registration for all students by class level in order to balance the requirement to give
154 priority registration to students in the California Promise program with the need to
155 maintain access to classes for all students.

156
157 Approved: April 3, 2017
158 Vote: 11-0-0
159 Present: Kaufman (Chair), Walters, Yao, Simpson, Miller, Wilson, Nash,
160 Perea, Mendoza, Spica, Sen, Bruck (non-voting)
161 Financial impact: None
162 Workload impact: Initial work will be needed by enrollment services to adapt the
163 registration process to account for students in California Promise
164 program. Continued workload will be needed by the Office of
165 Student and Faculty Success to ensure the list of students enrolled
166 in the California Promise program are accurate.

5 **Final Reading**

AS 1651

6 **Policy Recommendation:**
7 **Research, Scholarship, and Creative Activity: Advisor-**
8 **Student Relationship, Sponsored Projects, and Proprietary**
9 **and Confidential Information in RSCA**

10
11 **Legislative History: Rescinds S94-8**

12
13 **Rationale:** There is need to update the University policy on Research, Scholarship, and
14 Creative Activity (hereafter RSCA) in compliance with the [Integrated CSU](#)
15 [Administrative Manual Section 11000](#). In addition, policies, procedures, and practices
16 on campus have undergone significant changes in the last 20 years that necessitates
17 an update to our RSCA policy.

18
19 RSCA at a university advances the frontiers of knowledge, keeps individuals energized
20 and familiar with recent developments in their fields, and provides an experiential
21 learning context for students. These activities enrich a university community, contribute
22 to knowledge and progress in the profession, and contribute to high-quality education.
23 San José State University (SJSU) endorses the principles of academic freedom in
24 RSCA and the University promotes conditions of free inquiry as outlined in SJSU
25 University Policy S99-8. As per S94-8, SJSU supports RSCA activity and the pursuit of
26 research in concert with other university duties. All RSCA undertaken by SJSU
27 personnel and students must be in compliance with all federal, state, CSU, and SJSU
28 laws, regulations, and policies (contact Office of Research for guidance on laws,
29 regulations, and policies). RSCA is defined by the discipline and may be further
30 elaborated on within departments and colleges. RSCA typically excludes individual
31 consulting or individual private business ventures.

32
33 **Whereas:** RSCA at SJSU includes a wide range of activities, funding approaches,
34 disciplines, and practices, this policy covers only three aspects of RSCA: I. The RSCA
35 Advisor - Student Relationship; II. Sponsored Projects; and III. Proprietary and
36 Confidential Information in RSCA¹.

37

¹ See Table 1 for list of other University Policies relating to RSCA.

38 **I. The RSCA Advisor- Student Relationship**

39 The involvement of students as active participants in RSCA projects provides students
40 with richly rewarding, and often unique, learning opportunities, and the University
41 encourages student involvement in RSCA. Thus, one of the criteria that may positively
42 influence the decision to undertake RSCA projects or to accept extramural support is
43 the potential to enrich quality of the student learning experience. The University thus
44 adopts the following policy governing the RSCA Advisor - Student Relationship:
45

46 **A. RSCA Advisor Role**

47 When bringing students into a RSCA project as collaborators, the advisor should
48 encourage the free pursuit of learning, should show respect for the student as an
49 individual, and act as an intellectual guide and advisor/mentor.
50

51 **B. Alignment of Commitments and Obligations**

52 Prior to bringing a student into a RSCA project, the advisor and the student
53 should discuss time constraints and commitments and establish their respective
54 responsibilities, make clear any obligations to third parties, and discuss possible
55 implications of research misconduct. In some cases, the advisor and student may
56 face conflicts when there are simultaneous academic and RSCA obligations. In
57 these cases, the RSCA advisor and/or the student should contact the department
58 chair (or associate dean if the chair is the RSCA advisor) for guidance.
59

60 Situations may arise in which an advisor allows competing
61 commitments/obligations or third-party involvement to influence his or her role as
62 a teacher, mentor, or supervisor of RSCA, to the detriment of the student's
63 educational experience. Such influence could include transmission of student's
64 RSCA results to the organization before the project has been completed; inability
65 of an advisor who is frequently absent from the research setting to give
66 appropriate advice on the conduct of student's RSCA; and pressure on students
67 to change research directions to work on projects that strengthen an external
68 organization's position. The ultimate goal is to establish a clearly defined
69 relationship between all parties and establish a quality educational experience.
70

71 **C. Financial Support**

72 The University affirms the student's right to know the source(s) of the RSCA
73 funding. Should a student choose to reject financial assistance linked to the
74 source, the student has the right to do so without adverse consequences.
75

76 **D. Oversight**

77 The University, and by extension the RSCA advisor, is committed to protecting
78 the educational interests of students and maintaining an open environment free
79 from undue influence of private interests. Allegations of deviations from
80 acceptable standards in this regard should be brought to the attention of the
81 college or division head and/or the AVP for Research. Such allegations will be
82 investigated, and, where appropriate, action taken by the appropriate
83 administrative officer. Any action is subject to review by the next level of
84 administration and through standard University grievance processes to the extent
85 applicable by authorized employees.

86

87 **E. Recognition**

88 Significant scholarly or artistic contributions from students must be acknowledged
89 by the RSCA advisor. Prior to bringing students into a RSCA project, the RSCA
90 advisor must discuss what is meant by significant contributions within the
91 discipline.

92

93 **II. Sponsored Projects**

94 Sponsored projects are funded activities in which there is a formal written agreement
95 (i.e., grant, contract, or cooperative agreement) and may be thought of as a transaction
96 in which there is a specified statement of work with a related, reciprocal transfer of
97 something of value. An externally-funded sponsored project is an agreement between
98 SJSU and an external sponsor; such agreements are enforceable by law and
99 performance is usually accomplished under time and fund use constraints with the
100 transfer of support revocable for cause.

101

102 The University adopts the following guidelines governing sponsored projects:

103

104 **A. Oversight of Sponsored Projects**

105 With respect to externally-funded sponsored projects, the policies in [Integrated](#)
106 [CSU Administrative Manual Section 11000](#) “serve as the fundamental system-
107 wide requirements governing the California State University’s (CSU) involvement
108 with the solicitation, acceptance and administration of awards from extramural
109 sponsors for the conduct of research and scholarly activity, and other sponsored
110 activities.” [ICSUAM Section 11001.00]. ICSUAM Section 11002.01. Section 1.5
111 defines "Recipient" of a sponsored project as the university or auxiliary, but not
112 an individual, department or other constituent unit. Section 1.8 "Sponsored
113 Program Administrator" (SPA) is defined by the Recipient as the entity that will
114 administer the grant or contract. At SJSU, it can be the University, the Research
115 Foundation (Office of Sponsored Programs) or the Tower Foundation (pre-award

116 work for Tower Foundation is performed by Corporate and Foundation
117 Relations).

118
119 In consultation with the Associate Vice President (AVP) for Research or his/her
120 designee (hereafter: the term AVP for Research includes his/her designee except
121 where specified), SPAs help the Principal Investigator (PI) address the
122 requirements governing proposal preparation and submission, award negotiation,
123 and post-award management. SPAs assist with identification of possible funding
124 opportunities, management of solicitation of internal applications for limited
125 submission opportunities, and facilitate development of current and pending
126 reports. SPAs also negotiate and execute Materials Transfer Agreements, Non-
127 Disclosure Agreements, IP and Tech transfer agreements, and all other legal
128 instruments associated with sponsored programs.

129
130 The PI, acting for and on behalf of SJSU, has primary responsibility for the
131 management of his/her sponsored project in accordance with federal, state,
132 University, and sponsor requirements. For every funded award, a single PI must
133 be designated who personally participates in the project to a significant degree.
134 In circumstances where a sponsor specifies that the PI must be the President,
135 Provost or Dean, the designated PI will serve on behalf of the President, Provost,
136 or Dean.

137

138 **B. Principal Investigator Eligibility**

139 1. Internal Eligibility

140 The PI and any co-PIs must be qualified by education, training and experience
141 in the area in which the funded RSCA or other project is being conducted.
142 Generally, faculty members at SJSU on the tenure-line having the rank of
143 Assistant, Associate or Full Professor as described in their letter of
144 appointment are eligible to be a PI on sponsored projects. A co-PI may be a
145 faculty member, student, or other University personnel.

146

147 2. External Eligibility

148 Certain sponsors or funders may specify PI or co-PI eligibility criteria. Such
149 criteria may include degree(s), awards/honors, tenure, how many times the
150 individual has been a PI, faculty membership, etc. In addition to the sponsor's
151 criteria, the potential PI or co-PI must be aware of his/her own responsibilities,
152 have approval from his/her unit, and meet PI and co-PI eligibility requirements
153 as dictated by SJSU policy.

154

155 3. Exceptions

156 An administrator, faculty member in the Faculty Early Retirement Program
157 (FERP), emeritus, temporary, adjunct, visiting, volunteer faculty, University, or
158 auxiliary employee may serve as PI or co-PI with the prior authorization of the
159 AVP for Research. For academic personnel, PI and co-PI status must be
160 recommended at the department and/or college level pertaining to expertise
161 and by the Dean or designee based on the stated willingness of the potential
162 PI to comply with administrative and fiduciary requirements. Non-academic
163 personnel will use a parallel recommendation process. The petition for
164 exception is forwarded along with a Curriculum Vitae or resume to the AVP for
165 Research for final decision. The exception may provide limited approval for a
166 specific proposal or provide status for submissions for a specified period. If the
167 AVP for Research does not approve the request, the dean will be notified and
168 alternative PI solutions will be discussed.

169
170 **C. Externally-Funded Proposal Submission, Review, and Approval**

171 All requests for externally-funded, sponsored projects (including but not limited to
172 letters of intent, contracts or grant proposals that might be construed as a SJSU
173 commitment to the external party) shall only be submitted to sponsoring agencies
174 with prior written approval of the president and the chief financial officer, or their
175 designees (at SJSU, the AVP for Research and AVP for Finance, respectively).
176 The designees work closely with the SPA through which external funding
177 proposals are submitted and subsequent awards are received. Other
178 responsibilities of the SPA include: negotiating and accepting awards on behalf
179 of the University and PI (it must be emphasized that all awards are given to the
180 institution and not to the PI); drafting, negotiating and executing subcontracts;
181 representing SJSU and the PI when interacting with sponsors. The Office of
182 Research, SPA, and the PI are jointly responsible for ensuring institutional
183 compliance with Federal and State regulations; sponsor policy and University
184 policy compliance; coordinating pre-award and post-award actions that require
185 either institutional or sponsor prior approval; and reporting responsibilities.
186 Individual faculty members or non-authorized staff may not negotiate, sign,
187 amend, or accept externally funded contracts and grants on behalf of SJSU or its
188 auxiliaries. As noted above, each contract or grant proposal for extramural
189 funding of RSCA, training, and public service projects, and extramural awards
190 received for such projects, must name an eligible employee of the University or
191 auxiliary to serve as a principal investigator (see Section II B. to review eligibility
192 guidelines).

193 Funding proposals to support students' RSCA activity must be sponsored by
194 an eligible PI, as the designated PI. A student may be listed as a co-PI, but
195 may not be the point of contact or PI for the project. In general, students who

196 participate in sponsored programs must conform to all rules under the RSCA
197 Student-Advisor Section 1, in addition to the policies listed in Table 1.

198

199 **D. Principal Investigator Responsibilities**

200 While there may be any number of co-PIs, there must be one individual who is
201 recognized as PI (Lead PI) and is ultimately responsible to:

- 202 ● Conduct the sponsored project and complete required reports and
203 deliverables in accordance with applicable University, SPA, and sponsor or
204 funder policies and guidelines;
- 205 ● Ensure that all required University and SPA forms and certifications are
206 completed in a timely manner;
- 207 ● Conduct the work on the project according to the research protocol or
208 statement of work that was submitted with the original proposal or as
209 subsequently modified by the sponsor or funder in agreement with the PI and
210 the University/SPA;
- 211 ● Manage the project budget so that funds are spent in accordance with
212 financial and administrative policies and ensure timely submission of
213 expenses for reimbursement;
- 214 ● Manage project personnel in compliance with federal and state laws, as
215 well as University and SPA policy;
- 216 ● Manage the retention and storage of all programmatic technical materials
217 and reports in accordance with sponsor or funder guidelines and
218 requirements.

219

220 **E. Principal Investigator Performance, Compliance, and Review**

221 Satisfactory progress and review of sponsored programs are determined by the
222 sponsor or funding agency on a project-by-project basis. Any issues or concerns
223 with the performance or regulatory compliance of a PI regarding adherence to
224 University and SPA policies and procedures initially will be addressed with the PI
225 by the SPA in consultation with the AVP for Research. If the PI is non-responsive
226 or if the response does not result in adherence to applicable policies and
227 procedures, the AVP for Research will involve the dean or University official to
228 resolve the circumstances including possible reassignment of PI responsibilities
229 to accomplish compliance.

230

231 **III. Proprietary and Confidential Information in RSCA**

232 In general, while it is the policy of SJSU that RSCA should be accomplished openly and
233 without prohibitions on the publication and dissemination of the results of academic and
234 RSCA activities, in certain circumstances issues related to confidentiality or proprietary

235 RSCA may take precedence. Proprietary RSCA refers to information or materials that
236 cannot be made public or disseminated without the approval of the entity that owns the
237 proprietary rights to that information or materials. SJSU recognizes that some
238 publishable work can best be accomplished if a University investigator(s) has access to
239 a sponsor's proprietary information or materials. Confidential research is any research
240 that may need be kept non-public, but is not necessarily proprietary (e.g., medical or
241 academic records). Specific situations are governed by complementary policies.
242 Classified research is covered by SJSU University Policy F69-12. Student theses are
243 governed by SJSU University Policy S14-10. RSCA involving human subjects are
244 governed by SJSU University Policies S08-7 and F08-1. RSCA dissemination related to
245 Intellectual Property and Conflict of Interest is governed by SJSU University Policies
246 S96-11, F98-3, and S99-11. The pursuit of RSCA upholds the principles of Academic
247 Freedom and Professional Responsibility as outlined in SJSU University Policy S99-8.
248

249 **A. Confidentiality in RSCA Projects**

250 Information gathered and/or generated in RSCA projects may need to be
251 considered as confidential. This information may include, but is not limited to,
252 personal information regarding other RSCA team members, industry partners,
253 and funders, as well as intellectual property, marketing plans, and financial and
254 operational information. Every member of a RSCA team must take all reasonable
255 precautions to ensure that access to this information is restricted to authorized
256 individuals as determined by the PI of the team. RSCA team members may travel
257 with confidential information to a location on campus or outside the campus, but
258 team members must receive permission to do so from the PI. PI's should inform
259 students on the requirements of confidentiality and to mentor students as to the
260 appropriate uses and contexts for sharing RSCA information. When contacted by
261 the media regarding a RSCA project, only designated media spokespersons are
262 authorized to communicate with media sources.
263

264 **B. Non-Disclosure Agreements in RSCA Projects**

265 A Non-Disclosure Agreement (NDA) is a legally binding agreement that typically:

- 266 • Defines and describes information, knowledge, or materials to be shared
- 267 between or among the parties; and
- 268 • Restricts the usage and disclosure of the shared information, knowledge, or
- 269 materials.

270
271 A Non-Disclosure Agreement (NDA) may be proposed when the University is
272 considering entering into a business relationship with a company or individual
273 and where there is a need to understand or evaluate each other's technology,

274 research or processes, some of which might be proprietary or otherwise sensitive
275 or confidential in nature.

276
277 While NDAs are common in private industry, they may be inappropriate in the
278 University context, because of conflicts with the California Public Records Act,
279 the McKee Transparency Act (which applies to all SJSU auxiliary organizations)
280 or other laws; because they can inhibit RSCA members' and the University's
281 ability to use information. As such, no NDA can be entered into that permanently
282 bars dissemination and/or publication of RSCA information.

283
284 Students generally should not be asked to sign an NDA (e.g., as part of class
285 projects or academic courses). In exceptional cases where faculty members
286 believe it is necessary for students to enter into an NDA, they must obtain
287 approval from an appropriate administrator.

288
289 Any NDA which purports to apply to SJSU or any department or unit thereof (or
290 to commit or bind SJSU) can only be signed by an authorized SJSU
291 administrator. Any SJSU faculty or staff member who signs without authorization
292 could face individual legal liability for non-compliance with the NDA. The
293 University may not pressure a RSCA team member into participating in a project
294 that requires an NDA or in which consultation with that individual has not been
295 conducted. NDAs which are related to individual private business or consulting
296 are not subject to SJSU authorization. However, if these partnerships develop
297 into a RSCA activity, a conflict of interest declaration must be made and
298 managed by an authorized SJSU administrator, and a new NDA may be
299 required. A conflict of interest declaration is also required if the RSCA member is
300 participating both in an individual consulting and a sponsored RSCA project with
301 the same entity.

302
303 Any questions regarding proprietary research, confidential research, or the use of
304 NDAs should be referred to the Office of Research.

305 **C. Relationships with External Entities**

306 The following statements establish the basis, under this general policy, on which
307 SJSU will enter into contractual agreements with external entities dealing with
308 RSCA. External entities may operate within a proprietary environment while the
309 University functions on the principle of free inquiry and open expression. To
310 serve the common interests of both the University and the external entities,
311 reasonable and workable guidelines for collaborative work must first be
312 established.

313 1. SJSU enters into no contractual agreement that restrains it from disclosing
314 the existence of the agreement, the broad nature of the work, and the identity
315 of the sponsor.

316 2. As noted earlier, SJSU will not enter into any Non-Disclosure Agreement
317 (NDA) agreement that permanently bars investigator(s) from publishing or
318 otherwise disclosing the findings publicly. However, the AVP for Research, on
319 behalf of the institution and with the concurrence of the investigator(s), may
320 negotiate in advance to delay publication and/or presentation for a maximum
321 of 180 days to allow sponsors to give input on whether their proprietary
322 information may be revealed, or whether they will exercise their rights under
323 patent clauses in agreements with the institution. The AVP for Research on
324 behalf of the institution with the concurrence of the investigator(s) may agree
325 to an additional delay of up to 180 days.

326 3. Exceptions to Section III.C.2 may be granted by the AVP for Research who
327 may rely on the recommendation of an ad hoc committee. The AVP for
328 Research will make an annual report to the President specifying exceptions
329 granted under this provision.

330 4. This section on “Relationships with External Entities” does not apply to
331 individual, private, consulting projects. These would be projects that are not
332 sponsored projects or do not use university resources or SJSU students.

AS 1652

7 **Policy Recommendation:**
8 **Organization of the Program Planning Process at**
9 **San José State University**

10
11 **Rescinds S94-2, S96-10, and F03-4**
12

13 **Whereas:** The program planning process is mandated by Resolution REP 71-07 of the
14 CSU Board of Trustees ("Performance Review of Existing Degree Major
15 Programs"); and
16

17 **Whereas:** There are a significant number of inconsistencies and inaccuracies in the current
18 process with respect to policies; and
19

20 **Whereas:** The process has not been updated in over 10 years; and
21

22 **Whereas:** The 2015 evaluation by WASC included recommendations for the program
23 planning procedures on campus. Therefore, be it resolved that
24

25 **Resolved:** The following document, "ORGANIZATION OF THE PROGRAM PLANNING
26 PROCESS AT SAN JOSE STATE UNIVERSITY," be adopted as policy effective
27 AY 2017-2018.
28

29 **Approved:** April 24, 2017

30 **Vote:** 13-0-0

31 **Present:** Anagnos, Buzanski, Chang, Cargill, Chung, Grindstaff, Heil, Matoush,
32 Medrano, Mathur, Rodan, Stacks, Trulio

33 **Curricular Impact:** None anticipated.

34 **Financial Impact:** None anticipated.

35 **Workload Impact:** There is an expected short-term increase in staff time and data
36 development within the Office of Institutional Effectiveness and Analytics.
37 There will be increased workload linked to staffing of the PPC committee
38 from the Office of Graduate and Undergraduate Programs. There is an
39 anticipated reduction in workload for all programs.

47 **I. Authorization of Program Planning**
48

49 San José State University continually monitors, updates, and improves its curriculum
50 through the *program planning process*. While this process is mandated by a Trustee
51 policy as found in the Chancellor's Memorandum AA 71-32, "Performance Review of
52 Existing Degree Major Programs," SJSU's implementation of the process is also
53 independently authorized, augmented, and supported through this policy.
54

55 **II. Program Planning Goals**
56

57 Program Planning represents an opportunity for each program's faculty to improve their ability
58 to accomplish goals that attract them to their profession, including educating students,
59 advancing their discipline, and serving the community. By embracing rigorous internal and
60 external examination of their program, faculty gain the perspective necessary to adapt to
61 changing conditions, promote department health, and to provide an excellent quality
62 education for their students.
63

64 The four key goals of the Program Planning process are:

- 65
66 1) To promote a continuous internal review and planning process that will provide
67 programs with purposeful future improvement.
68
69 2) To serve as a vehicle to help programs support the mission of the university, college,
70 and department.
71
72 3) To provide an opportunity for programs to systematically assess their course
73 offerings, achievement of student learning outcomes, student success, retention
74 and graduation rates, and the faculty and instructional resources necessary for
75 providing an excellent educational experience to students.
76
77 4) To provide an opportunity for programs to review their complementary activities
78 and how these activities strengthen the program and its goals.
79

80 **III. Establishment of the Program Planning Committee and its tasks.**
81

- 82 A. Charge: The Program Planning Committee (PPC) is responsible for the implementation
83 of the academic program planning process, as provided in this program planning policy,
84 and recommends to the Curriculum and Research Committee (C&R) changes in the
85 policy, review guidelines, and other matters relating to program planning and review.

B. Membership:

The Program Planning Committee (PPC) shall be made up of the following members:

- i. Office of the Provost designee (EXO)
- ii. Office of Graduate and Undergraduate Programs designee (EXO)
- iii. Office of Research designee (EXO)
- iv. Office of Institutional Effectiveness and Analytics designee (EXO)
- v. Director of Assessment (EXO)
- vi. Two Faculty Members from Applied Sciences and Arts
- vii. Two Faculty Members from Business
- viii. Two Faculty Members from Education
- ix. Two Faculty Members from Engineering
- x. Two Faculty Members from Humanities and the Arts
- xi. Two Faculty Members from Science
- xii. Two Faculty Members from Social Science
- xiii. One Faculty Member from the General Unit
- xiv. One Graduate Student
- xv. One Undergraduate Student
- xvi. GUP Staff Member (Non-voting)

C. Recruitment and Appointment of Members: Faculty members (other than ex-officio)

shall be appointed for two-year staggered terms. The student members serve a 1-year term. Solicitation of applications to serve on the Program Planning Committee will be made through the normal Committee on Committees process for the seats designated for faculty and student members. When multiple applications are submitted for a seat, the Executive Committee of the Academic Senate will select individuals to serve. In considering applicants, attention should focus on the person's expertise in areas related to curriculum and program planning and the need for continuity over time in membership for a portion of the seats.

- i. The committee shall elect its chair from the faculty representatives by majority vote.
- ii. All members, except as noted, shall be voting members of the committee.
- iii. If a member is absent from three regularly scheduled committee meetings in an academic year, or if a member repeatedly does not perform assigned committee duties, the chair of PPC may request that the Associate Vice Chair of the Senate initiate action leading to the election of a new member.

D. Responsibilities of PPC:

- i. The PPC reports and conveys its recommendations on the Program Planning Guidelines and process to C&R.
- ii. PPC will maintain confidentiality of materials including all information provided to outside accreditation agencies or to outside reviewers, as specified in the Program Planning Guidelines.
- iii. PPC will establish its operating procedures as needed.
- iv. PPC is responsible for the review of all departmental program plans.

130 v. Both C&R and PPC can propose changes to the *Program Planning Guidelines*. C&R
131 has final approval of these guidelines and conducts a full review at least once every five
132 years.

133 vi. Members are expected to know the current review guidelines and program planning
134 policy.

135

136 **IV. Scope of the Program Planning Process**

137 Program Planning includes both state-support and self-support programs. Each department will
138 conduct a review of at least the following elements:

139

140 A. All undergraduate and graduate degree major programs.

141 B. Credential programs.

142 C. GE and service courses offered within the department.

143 D. Minor programs offered within the department.

144

145 E. A minor degree program (outside the department) specified and required by a
146 major degree program.

147

148 F. Certificates offered within the department.

149

150 **V. The Process for Program Planning**

151

152 A. Programs that are not subject to external accreditation undergo a program planning
153 review every seven years (measured from the beginning of the cycle). Accredited
154 programs will undergo a program planning review within a year after the completion of
155 an accreditation review. Programs with accreditation cycles of eight years or more will
156 also complete a program planning mid-cycle progress review.

157

158 B. The overall program planning process shall take no longer than four semesters to
159 complete and will be organized by the Graduate and Undergraduate Programs Office.

160

161 C. Reviews by external accreditation agencies are considered the equivalent of an
162 external reviewer evaluation, provided that such reviews address all criteria of the
163 program planning guidelines. PPC will make the final decision as to whether the criteria
164 of the guidelines are met.

165

166 D. Programs that undergo external accreditation prepare a program planning self-study
167 using a template provided by the PPC that maps the accreditation self-study onto the
168 Program Planning Self Study Guidelines. If any components specified in the Program
169 Planning Guidelines are missing from the accreditation self-study, programs will need to
170 provide them.

171

172 E. In general, academic units with both graduate and undergraduate programs are
173 reviewed in the same cycle, except in special circumstances (e.g., different external
174 accreditation cycles).
175

176 **VI. Evaluation of the Program Plan, Feedback, and Final Action Plan**
177

178 A. The program plan is evaluated by the PPC which determines whether the review process
179 was conducted in accordance with the published Program Planning Guidelines, and
180 whether the plan represents a reasonable effort to meet the future needs of the students,
181 faculty, and community. The Board of General Studies (BOGS) is responsible for
182 evaluating the General Education portion of the self-study.
183

184 B. After its evaluation of the program plan and BOGS review, the PPC may recommend one
185 of the following actions:
186 • Accept the plan and provide recommendations to be discussed at the action plan
187 meeting.
188 • Require revisions and resubmission of the plan for specific reasons.
189 • Initiate a program termination review (See [Senate Policy S06-7, S13-9](#)) for specific
190 reasons.
191

192 C. The PPC prepares a Letter to the Provost summarizing their findings and
193 recommendations. This letter is copied to the program, C&R, and designated
194 administrative individuals. Programs have the opportunity to review and correct any factual
195 inaccuracies in this letter.
196

197 D. For program plans that are approved, an action plan meeting is established and facilitated
198 by the chair of the PPC. Invitees to this meeting include the Provost or designee, AVP of
199 Graduate and Undergraduate Programs, AVP of Academic Budgets and Planning,
200 Department chair, faculty and staff of the program, Dean and Associate Deans of the
201 respective college, and additional administrators suggested by the Provost, chair of the
202 program, or chair of PPC.
203

204 E. At the meeting, representatives from the academic units provide updates since program
205 review and clarifications to the Letter to the Provost. Participants at the meeting discuss
206 the recommendations in the Letter to the Provost and any additional items. Participants
207 agree to a final action plan with measureable goals for their next program plan cycle. The
208 Director of Assessment will communicate to the Board of General Studies items from the
209 final action plan related to General Education.
210

211 F. After this meeting, the draft action plan (with clear deadlines) will be reviewed by the
212 department, dean, and PPC chair for any inaccuracies and to ensure it reflects the action
213 plan meeting discussion.
214

215 **VII. Annual Assessment Reporting of General Education and Program Learning**
216 **Outcomes**

- 217
- 218 A. Programs are required to provide annual assessment updates between full reviews.
219 These updates are to the Director of Assessment. Two separate assessments occur:
220 one for GE courses within a program, and a second one for student learning and
221 achievement of the overall program learning outcomes.
222
- 223 B. The assessment forms are created by the college assessment facilitators and the
224 Director of Assessment.
225
- 226 C. The Director of Assessment reviews these reports and provides feedback to programs in
227 between their program planning cycles.
228

Program Planning Process

The program planning process is carried out within the framework of the University Program Planning Policy. Although the unit of analysis is the program, defined as a sequence of studies leading to a degree, minor, certificate or teaching credential, typically all programs within a single department are reviewed at the same time. In addition, minors that are specified and required by a major degree program are evaluated in conjunction with that major degree program. Concentrations are separate degree programs. Teacher education programs meeting the requirements of the California Commission on Teacher Credential (CCTC) are reviewed as programs. Accredited programs follow the same process as non-accredited programs, but use a modified program planning self-study template (see 'Accredited Programs' in Appendix 1).

Program planning is future-oriented and evidence-based; program goals provide a strategic framework intended to guide all key aspects of the program's activities such as student success, student recruitment, assessment of program learning outcomes, curriculum and curriculum development, faculty hiring, research, scholarship or creative activities (RSCA), and interaction with the community. Program planning and evaluation involve faculty at the department, college, and university levels and culminate with the Provost's approval of clearly articulated goals, metrics, and a plan for achieving these goals. A well written program plan draws together evidence to build a picture of the evolution of the environment (e.g., technological, social, economic, political, environmental and legal) and the needs of key stakeholders (e.g., students, potential employers, the University, the CSU, professional and industry associations, relevant interest groups). It documents the current state of the program and articulates the initiatives and resources needed to meet the challenges the program anticipates it will need to address during the next program planning cycle, and beyond. Programs may also review University Policy [S93-14](#) "Curricular Priorities" in developing their program plan.

Table 1 lists example questions that the program could consider and address in its self-study report.

Table 1: Example Questions to Consider in the Self-Study

- How are technological, social, economic, environmental, political and legal factors likely to alter the careers for which we are preparing our students?
- What changes in career opportunities, professional practice, technology, or other relevant discipline characteristics are students completing this program likely to face?
- What changes are expected in the characteristics or academic backgrounds of students coming into the program?
- What changes in the curriculum (e.g., for lifelong learning, good citizenship, living in a complex, multicultural society, etc.) should be considered to improve student success and better prepare future students for their lives and careers?
- What are some the most pressing challenges our students currently face and will face in the next 5 to 10 years? And, how can our programs address these challenges (e.g., through curriculum, modes of instructional delivery, advising, academic support)?
- What challenges do faculty face, both in their career development, and the life-work balance that are unique to our region?
- What faculty recruitment and development opportunities are needed to support the program?
- What changes in support resources (e.g., staff, equipment, infrastructure, travel funds, etc.) are needed to maintain or change the program quality, size, and achievement of student learning outcomes and RSCA?

Note: this list is neither exhaustive nor definitive.

Program Planning Procedures and Timeline

The timing for program planning is governed by University Policy (i.e., Section V). The primary steps for program planning are summarized in Table 2. The entire process should take no longer than 4 semesters to complete. Each step is discussed in detail below.

Table 2. Summary of Program Planning Timeline

Activity	Primary Responsible Party(ies)
Semester 1	
1. <u>Developing the Self-Study</u>	
<ul style="list-style-type: none"> Meeting with Dean to discuss the elements of the self-study 	Dean and Department.
<ul style="list-style-type: none"> Department requests required and any optional data elements from Office of Institutional Effectiveness and Analytics 	Department and Office of Institutional Effectiveness and Analytics
<ul style="list-style-type: none"> Complete the Program Planning checklist to ensure that program adheres to the guidelines (page limits, GE included, Data elements included). Prior to Dean review, Chair of Program Planning checks the self-study for completeness. Self-study sent to the Dean for review. 	Department, Chair of Program Planning.
Semester 1 and Semester 2	
<ul style="list-style-type: none"> Dean reviews, prepares a brief written commentary, and approves the self-study. 	Dean
2. <u>Setting up external reviews</u>	
<ul style="list-style-type: none"> Provide the vitae of three external reviewers to the college dean (in the case of accredited programs, no additional reviewers are required). Dean ranks reviewers and forwards rankings to AVP of GUP. AVP of GUP selects and invites external reviewer. 	Department, Dean, and AVP of GUP

Semester 3 and Semester 4	
4. <u>Review by the Program Planning Committee</u>	
<ul style="list-style-type: none"> BOGS returns feedback on GE courses to PPC All material provided to PPC for evaluation. PPC evaluates all material. Letter to Provost prepared and submitted. 	BOGS, PPC and GUP Office
5. <u>Action plan meeting</u>	
<ul style="list-style-type: none"> Action Plan meeting with Provost or designee, department faculty and staff, Dean, Deputy Provost, AVP-GUP, AVP-Research, Program Planning Chair is held. Action plan is prepared and signed. 	Chair, PPC and GUP

1. Developing the self-study

The program planning process begins with the department (or program) faculty meeting with their dean to discuss challenges the program anticipates (see Table 2), the department's strengths, weaknesses, threats and areas of opportunity, and suggest initiatives and actions needed to meet those challenges. In developing its plan, programs should be guided by the department, college, and university's vision mission, and draw on any strategic planning that has occurred within the department or college. The department prepares a document, called the self-study. The template guides the self-study (found on the GUP website). Appendices to the self-study are used for presentation of detailed data, while the narrative sections of the self-study provide interpretation, context, perspective, and analysis.

Responsibility for Self-study

Detailed guidelines for preparing and formatting the self-study are outlined in Appendix 1. The department could designate a faculty member to coordinate the development of the self-study, for which release time may be awarded; however, all faculty should be involved in its development. Funding of release time from GUP is only available for non-accredited programs. Release time funds are transferred from the GUP office to the respective dean's office only after the self-study is complete and submitted to the dean. Department chairs/Program Directors have the responsibility to ensure that all tasks necessary to develop a self-study are assigned and completed (see Table 2 above for timeline of self-study). It is the responsibility of the dean's office to ensure completion of the self-study in a timely fashion. Once the self-study is complete, it is forwarded to the Dean's office for approval and brief commentary.

2. Setting up external reviews.

Once the dean has commented on and approved the self-study, the department provides the CVs for three external experts in the discipline to evaluate the program. The dean reviews these CVs, rank orders them, and forwards them to GUP. The AVP picks an external reviewer. Details for the external review process is outlined Appendix 2. The review is completed and submitted by the end of semester 2.

3. Review by the Program Planning Committee

After the program faculty have had an opportunity to respond to the external reviewer's report in writing, all of the documents are submitted electronically to the Graduate and Undergraduate Programs Office (e.g., self-study, external reviewer report, response to reviewer). These are reviewed by the University Program Planning Committee (PPC),

which provides a university-wide perspective on the program and makes recommendations to the Provost. The department will be provided a copy of the letter to check for factual inaccuracies. This letter will then be provided to the Provost and will schedule a meeting with the Provost (or Provost's designee) to complete the overall process.

4. Action Plan Meeting

The Office of GUP will schedule a meeting with Provost (or designee), the Department/Program, College Dean, AVP-GUP, AVP-Research, Program Planning Chair and other administrators as needed. At that meeting, the Provost (or designee), dean, department chair, faculty, and staff, and the chair of the PPC will discuss program recommendations and develop an action plan. The draft action plan will be circulated to the Dean and the department before it is finalized. The action plan will be signed by the department chair, the Dean and the Provost (or designee). One copy of the signed Action Plan will be kept by GUP, one by the College and one by the department. This Action Plan will be used to guide the department in its activities in the upcoming program cycle. GUP is the official site of records and is responsible for electronic distribution of materials to concerned entities.

5. GE Component

For programs with GE courses and for which BOGS has made recommendations to the PPC, the Director of Assessment will communicate any relevant items in the Action Plan to BOGS.

APPENDICES

Appendix 1: Format of the Self-Study

All self-studies must use the Program Planning Template (see Appendix 2). If some items in the template are not applicable to a program do not delete them but indicate “N/A” under that heading. The main text of the report will be **no more than 25 pages** for a department with one degree program. Departments that offer two or more degree programs, concentrations, or interdisciplinary programs in conjunction with other departments may add a maximum of **five pages per program** to the main text, appropriately expanding the relevant sections. For example, a department with both an undergraduate and a graduate degree will have a maximum of 30 pages to incorporate both programs into Sections 1 through 8. The entire self-study must be submitted as one pdf file.

Accredited Programs

Accredited programs are required to include all of the elements of the standard Program Planning Template. These programs will use a modified template to map self-study headings onto the corresponding sections in their accreditation submission. Where there is no corresponding section, the required information must be included in the self-study. Questions regarding sufficiency of correspondence in accreditation submissions should be discussed between the program coordinator and the PPC.

Appendix 2: Program Planning Template

<Instructions for Program Planning Guidelines and Template: Please replace all <text in brackets> with the requested information, and delete these instructions before submitting to the dean. Self-studies have a **25-page limit** for departments with a single degree program, excluding appendices. Five pages may be added to the main text for each additional degree program. Special Note: If an area does not pertain to your department/program, please do not delete it. Instead, place “not applicable.”>

Date of Report:	<Date report is completed and submitted to dean>
Date Due to PPC:	<Date report is completed and submitted to dean>
Chair of PPC/ PPC Liaison:	

Submissions: Reports are to be submitted electronically as one document. Please email the program plan, request for external reviewer (if applicable), and external reviewer’s report to programplanning@sjsu.edu. In addition, please cc. the above email on all communications with the dean, external reviewer, Program Planning Committee, and GUP on matters pertaining to your program plan.

1. Department/Program Recommendations

<Based on the self-study, the department must propose a plan of action for execution in the upcoming program planning cycle. List action items or recommendations for future improvement of student learning, student success, and program operations. Describe resources and timelines required for each. Please consider all categories of program review in this report.>

2. Progress on Previous Action Plan

<Summarize outcomes of the previous final action plan.>

3. Program Descriptions

3.1 Program Mission and Goals

<Include the program's mission and goals here>

3.2 Summary of Degrees, Minors, Certificates and Service Courses

<The purpose of this section is to summarize the main curricular contributions of the department. List the degrees, minors, and certificates the program offers. Summarize the service courses offered within the department (e.g., GE courses, courses serving other degree programs). Include a brief statement or table of how unit distributions within the degree programs meet relevant concentration and core curriculum policies and compliance of EO 1071. Include justification of PE waiver request as per University policies, S14-11 and S13-3. >

4. External Factors, Trends, and Context

<In this section (Section 4), include only those factors that have a significant impact on your program.>

4.1 Changes in the external environment

<Describe expected changes in the technological, social, economic, environmental, political and legal context of the program and the field. Data can come from alumni surveys, industry partners, review of policy changes, as well as other sources that are relevant to the discipline.>

4.2 Changes in the field

<Describe expected changes in career opportunities, professional practice, technology, or other relevant discipline characteristics. This would be the place in your plan in which you might explain how RSCA, community engagement, and

other activities that support intellectual engagement and currency, impact the program's curriculum.>

4.3 Trends in entering student characteristics

<Describe trends in academic and demographic characteristics of entering students and relevant impacts it will have on the program>

4.4 Future challenges for students the program serves

<Describe relevant challenges students the program serves currently face and will face in the next 5 to 10 years and impacts it has on the program>

5. Strategic Direction for the Program(s)

5.1 Changes to the curriculum and delivery of the program(s)

<Describe any proposed changes to the program(s) needed to meet the changes, trends, and challenges described in Section 4. This section should include planned changes to degrees, minors, certificates and service courses.>

5.2 Faculty Recruitment and Development

<Describe the implications of the changes noted in Section 4 for faculty recruitment and development.>

5.3 Department Initiatives to Enhance Student Success

<Describe planned department initiatives to facilitate student success (e.g., advising, high-impact practices).>

5.4 Resource Implications

<Describe resources needed, no longer needed, or that could be reallocated to fulfill the program's mission and meet the challenges described in Section 4.>

6. Assessment of Student Learning in the Program

6.1 Program Learning Objectives (PLO)

<Include the program's learning outcomes.>

6.2 Map of PLOs to University Learning Goals (ULG)

<Include a mapping of the program learning outcomes to the University Learning Goals.>

6.3 Matrix of Courses to PLOs

<Include a mapping of the courses to the program's learning outcomes at the introduced, reinforced, and mastery levels.>

6.4 Interpretation of Assessment Results and Subsequent Actions

<Provide analysis, interpretation and subsequent actions and recommendations based on the assessment data. Include relevant supporting data in an appendix.>

6.5 Longer Term Indicators of Student Success

<Examples might be job placement, attainment of higher level degrees, leadership roles, publication and success in creative activities.>

7. Program Metrics and Required Data

7.1 Enrollment, Retention, and Graduation Rates

<Describe trends in new freshmen and transfer enrollments, 1st year retention rates, graduation rates, and number of graduates from your program. Report numbers for total, underrepresented minorities (URM), and non-URM populations. Compare your numbers to college and university averages, and explain significant deviations, if any. Compare 4-yr and 6-yr graduation rates for first-time freshmen, and 2-yr and 4-yr graduation rates for transfer students, to the university targets for total, URM and non-URM populations.>

7.2 FTEF, SFR, Percentage T/TT Faculty

<Discuss the program's faculty headcount, full-time equivalent faculty (FTEF), student-faculty ratio (SFR) and the ratio of tenured and tenure-track (T/TT) to lecturer positions in the program. Examine how faculty hiring and workload practices relate to the program's mission, goals, and student outcomes.>

7.3 Additional Program Data Elements

<Discuss other significant developments or insights about the program using the remaining Program Planning Data Elements. Include all required data elements in the order they are given along with any optional elements that would help inform future directions and decision-making for the program.>

8. Assessment of Student Learning in GE courses, if any

8.1 GE Summary and Reflection

<Summarize the program's involvement in GE over the past program planning cycle and any plans for the next program planning cycle. Reflect on how well the programs' GE courses contribute to their GE Area Goals and to the larger General Education Program Outcomes. (This summary and reflection shall be no more than two pages). This is "Part 1" under "Program Review: GE Component" in the GE Guidelines. >

8.2 Interpretation of Assessment Results and Subsequent Actions

<Provide analysis, interpretation and subsequent actions and recommendations based on the assessment data. Refer to the GE continuing certification material in Appendix 9.5.>

9. Appendices to the Report

9.1 Required Data Elements

9.2 Accreditation Report (if applicable)

9.3 (Example) Curriculum flow charts, and mappings

9.4 (Example) Assessment rubrics

9.5 (Example) Student success data summary

9.6 (Example) Program Review

GE Component (refer to [GE Guidelines](#), page 11 for details)

9.7 Other (as determined by the program)

Appendix 3: External Reviewer Guidelines and Process

1. Role of External Reviewer

The reviewer's role is to bring an informed and dispassionate view to the assessment of the plan as it is presented. Before visiting the campus, the reviewer should review the Program Plan submitted by the Department.

**Table 3: Guiding Elements/ Possible Questions
for the External Reviewer**

- How does the department/program address important trends in technological, social, political and economic environment, and trends in the discipline, nationally and locally?
- How does the plan respond to the challenges and opportunities identified?
- How does the plan respond to assessment materials included in the report?
- How does the plan address curricular, advising, and research needs to enhance student success and prepare students for their future careers?
- How is the plan aligned with the current university strategic plan and priorities as well as program, departmental, and university learning outcomes?
- What are the measurable outcomes of the plan? Are they germane and realistic?
- How does the plan address the educational needs of the diverse community of which SJSU is a part?

Note: this list is neither exhaustive nor definitive.

During the visit, the reviewer will meet with students, faculty, and administrators. An initial interview will be held on the first day with the Dean and AVP-GUP. At the end of the visit, the reviewer will be asked to present initial impressions and findings at an exit interview, which will include the dean, faculty from the department, AVP-GUP, representative(s) from the Provost's office, the Director of Assessment, and representative from the Program Planning Committee.

2. External Reviewer Selection Criteria

The Department nominates at least three candidates as the external reviewer, who

meet the following criteria:

- Demonstrated leader in the field (publications or creative works; reputation in instruction; active participation in appropriate scholarly and/or professional activities).
- Familiarity with academic/professional goals of the departments as well as the nature of the program being reviewed (e.g., experience with similar programs, experience with graduates of program being reviewed).
- Affiliation with an accredited academic department/program, or with a professional organization appropriate to the program being reviewed.
- No conflict-of-interest (i.e., no graduate of program, recent employee, friend or relative of any member of the program, recent contractual arrangements with program).
- Willingness to work within the financial constraints of SJSU (see Budget below).

The department contacts potential candidates to confirm that they would be willing to serve as an external reviewer.

3. Budget

- Cost of travel, not to exceed rates available from a University contracted travel agency.
- Cost of accommodations
- \$1,000 honorarium
- If the program/department wishes to offer additional funds, it may do so at its own expense.

4. Procedures

A. At the time of the self-study submission, the department/program submits to the Dean the CVs of the three candidates who are acceptable to the department and able to serve within the required time period as agreed upon. The Dean rank orders the reviewers and provides to the AVP-GUP with the CVs.

B. The AVP-GUP selects one reviewer from the candidates and notifies the department of the selection.

C. The department arranges for the date of the review and the site visits. The Office of GUP engages the reviewer and sends contract and other relevant documents (Self-Study of Program, Program Planning Guidelines, Rubric for Evaluation of Program, Curricular Priorities, and letter of invitation) to the

reviewer.

D. The department then arranges the schedule of the visit, including the entrance and exit interviews, in consultation with the College, the Program Planning Committee Chair, the Office of Graduate and Undergraduate Programs, and Office of Research.

E. The department contacts the reviewer one month prior to visit to see if they need anything else.

F. At the time of the visit, the Office of GUP transfers funds to the College. The department arranges for all payments of honoraria and airfare.

G. The reviewer must submit an electronic final report to the Office of Graduate and Undergraduate Programs within three weeks of the completion of the visit.

5. External Reviewer Visit

A. Time: One and a half days to two days for site visit.

B. People to meet while on campus:

- Department faculty, staff, students, and Department Chair (Alumni if possible)
- College Dean and Associate Deans
- AVP of GUP
- AVP of Research
- Provost (Optional)
- Program Planning Committee Chair or designee

C. Required Meetings:

- Initial interview with the Dean and AVP-GUP.
- Exit meeting for Reviewer to present initial impressions, to which all persons in the unit may attend. The following people are invited to the Exit meeting: representative(s) of the Provost; AVP-GUP, college dean; department chair and faculty; PPC Chair or designee; University Director of Assessment; AVP for Research, and other relevant constituencies where appropriate.
- Any meetings established by the department.

D. Other aspects of the visit

- Selected student products should be available for review (i.e., papers, projects, creative works, awards, publications, presentations).

6. Template for the Reviewer's Report

The report should be 3-5 pages in length and should be guided by the rubric posted on the GUP website. Findings should be based on evidence that is collected in response to the primary focal points of the Self-Study. It must also include recommendations for change if the reviewer's evaluation finds that the plan is inadequate in the light of assessment responses or other reasons that are explained. If possible, it should also include comparisons with other programs in institutions and communities that are similar to SJSU. The format of the report should include an executive summary (i.e., summarize key recommendations), an analysis of the curriculum and assessment, review of student experience and success, evaluation of resources (i.e., planning, personnel, program management), identification of challenges and opportunities, and conclusions and recommendations¹.

¹ See GUP website for suggested template for External Reviewer Report and suggested program review rubric for use by external reviewers

AS 1653

7 **Policy Recommendation:**
8 **SJSU Graduate and Undergraduate**
9 **University Learning Goals**
10

11 **Legislative History:** Rescinds S13-2
12

13 **Rationale:** Since the passage of this university policy in Spring 2013, the campus has
14 received recommendations from our recent WASC accreditation report
15 regarding our University Learning Goals (ULGs). It is important to
16 establish the qualities that define the competencies of SJSU graduates to
17 inform both undergraduate and graduate current and future students, as
18 well as the community, about the expected achievements of an SJSU
19 education. SJSU graduate programs also recognized that the ULGs
20 needed adjustment to be inclusive to graduate curriculum.
21

22 **Whereas:** The first ULGs were generated by the Mission, Outcomes and Meaning
23 WASC task force in consultation with the University Council of Chairs and
24 Directors (UCCD), Associate Deans, Deans and the WASC Steering
25 Committee within the categories defined by the San José State University
26 Academic Senate (SS-S12-3); and
27

28 **Whereas:** This same consultation process was used to revise these ULGS; and
29

30 **Whereas:** These ULGs were designed such that they would articulate with existing
31 assessment strategies; and therefore be it
32

33 **Resolved:** That the following University Learning Goals be adopted, effective AY
34 2017-2018, as the University Learning Goals for San José State
35 University.
36

37
38 **Approved (C&R):** April 24, 2017

39 **Vote:** 11-0-0
40
41 **Present:** Anagnos, Buzanski, Chang, Chung, Grindstaff, Heil,
42 Medrano, Mathur, Rodan, Stacks, Trulio
43
44 **Absent:** Cargill, Matoush
45
46
47 **Curricular Impact:** Programs may adjust some of their program learning
48 outcomes to better align with these ULGs and thus there
49 may be changes in some of their curricular offerings.
50
51 **Financial Impact:** None anticipated.
52
53 **Workload Impact:** These revised ULGs require programs to re-map their
54 program learning outcomes for both their undergraduate
55 and graduate programs. This is a process that would occur
56 before our next full WASC accreditation visit.

San Jose State University graduates will have developed:

Social and Global Responsibilities

- An ability to consider the purpose and function of one's degree program training within various local and/or global social contexts and to act intentionally, conscientiously, and ethically with attention to diversity and inclusion.

Specialized Knowledge

- Depth of knowledge required for a degree, as appropriate to the discipline.

Intellectual Skills

- Fluency with specific theories, assumptions, foundational knowledge, analytical and interpretive protocols, tools, and technologies appropriate to the discipline or field of study.
- Skills necessary for mastery of a discipline at a level appropriate to the degree and leading to lifelong learning, including critical and creative thinking and practice, effective communication, thorough and ethical information gathering and processing, competence with quantitative and/or qualitative methodologies, and productive engagement in collaborative activities.
- *For undergraduate students in a baccalaureate program:* an understanding of critical components of broad academic areas, including the arts, humanities, social sciences, and sciences.

Integrative Skills

- Mastery in each step of an investigative, creative, or practical project (*e.g.*, brainstorming, planning, formulating hypotheses or complex questions, designing, creating, completing, and communicating) with integration within and/or across disciplines.
- An ability to articulate the potential impacts of results or findings from a particular work or field in a societal context.

Applied Knowledge and Skills

- An ability to apply theory, practice, and problem solving to new materials, settings, and problems.
