

Candidate Statement

Billie Jo (BJ) Grosvenor

Faculty-At-Large

It is with great enthusiasm that I state my interest in serving the Senate in the capacity of Faculty-At-Large. I was deeply moved that one of my peers would think highly enough of me, to nominate me for this position.

I understand its role and reasonability in relation to the Executive Committee. I know I am fully capable of stepping into this role.

Currently serving on the senate and having previously to serve on the Executive committee, I have been afforded the “wider” lens necessary to engage in substantive and meaningful dialogue. I desire to serve you as one of the leaders moving the university through opportunities of evolution. Much is changing in the world around us. I am never been one to shy away from progress, tempered with a dose of reflection and pacing.

I have been fortunate to be an active faculty member on this campus since 1996. Many things have changed such as our streets, buildings, programs and people. One thing has remained the same in me, my faith in the institution being larger than any one of us.

The mission of a high quality public education is a heart beat in my soul. I am so fortunate to be able to say, I am public school educated – and proud of it! I cherish our mission and work every day to advance the calling of SJSU in all my work with students, with peers and with the community.

Thank you for considering my interest in serving you as the Faculty-At-Large representative.
