

Statement of interest – Senate election, Humanities & the Arts

Stefan Frazier

In running for my second term, I would like to continue working closely with colleagues on the Senate itself and on the Instruction and Student Affairs committee, on which I have served for two years. I have also served on the Organization and Government committee, participating in the investigation of the affairs regarding the controversial reorganization of the College of H&A. My re-election to the Senate would strongly contribute to continuity on these matters.

I have served seven of my eight years at SJSU as coordinator of LLD 1 & 2 (“remedial” writing). For three years, I was also coordinator of the Master’s program in Teaching English to Speakers of Other Languages (TESOL). I am a member of the university’s Writing Requirements Committee and several of my department’s (LLD’s) committees, including curriculum, hiring (through three full-time and many part-time hiring processes), and RTP (for both full- and part-time instructors).
