

Candidate's Statement for Instructional and Student Affairs Chair 2020

The Instruction and Student Affairs Committee has changed the way that I operate at SJSU. It has given me perspective on the university operations that I apply to my classroom, department, and college. It has helped me develop leadership, communication, and management skills that I utilize every day. I want to continue to give back to ISA, the senate, and the university through serving as chair of the committee.

I have served on ISA since my election to the senate in 2014, and served as chair since 2017. I find its work a critical contributor to the university mission and student success. My experience as a policy committee chair has been stimulating and inspiring. I hope to continue to grow in this position and mature into a more effective committee chair, continuing the work I have done with such an amazing group of committee members.

Thank you for your consideration,
Laura Sullivan-Green
