

## Open Inquiry Reflection

1.

A large empty rectangular box with a thin black border, intended for a student to draw a labeled diagram of an arthropod feature.

Make a labeled drawing of the arthropod feature that you chose to do research on.

2. Why is it important for scientists to come up with and research questions and ideas that interest them?

3. Why is it important for scientists to share the results of their research with each other?

4. What was difficult about doing your own research? About presenting?
