

A True Book, LIZARDS
Reading Comprehension Questions

Answer Key

1. More than 200 years
2. The second and fourth pictures do not represent home environments for lizards. This is because the North and South Poles are too cold for them to survive in.
3. Lizards like to relax on tree branches, rocks and sand.
4. **Ectothermic** means “outside heat.” Lizards depend on their environments to become cold or warm.
5. Lizards get cold by resting in the shade. They get warm by basking in the sun.
