Catalog Course Description

Comparative analysis of micro and macro sociological theories and their origins, including, but not limited to, conflict theories, consensus theories, structural functionalism, symbolic interaction and recent theoretical developments. Required for majors.

Instructor Course Description

We will explore the role (What is theory for? Why do we have it? Why/how do we use it?) and substance of sociological theory from the “core” to the more contemporary periods of sociological thought. To do so, we will study both the theories and the theorists that helped to build the field of sociology and the discipline of social science. We’ll look at what they had to say, but also at who they were, and what the world was like around them at the time.

We will begin with an exploration of “core” sociological theory that emerged from intellectual debates and social conflict over the meaning and implications of the rise of industrial capitalism in the 19th century. We will then move from the classic core theorists (Durkheim, Marx, Weber) to the work of sociological theorists in the 20th and 21st centuries that critiqued, expanded on, and departed from these early models. These later theorists (many of whom were also political prisoners/revolutionaries, people of color, women, and colonized peoples) constructed many of our most critical theoretical tools of today: Neo-Marxist schools and contemporary Anarchism(s), Feminism(s), Critical Race Theory, Post Modernism/Post Structuralism, Symbolic Interactionism, Theories on Deviance/Social Control, and so forth.

Course Learning Outcomes (CLO)

Upon successful completion of this course, students will be able to:

1. (CLO1) Identify and describe the traditionally central bodies of sociological theory and many of their founding scholars.
2. (CLO2) Demonstrate an understanding of the role of theory in scholarship and research.
3. (CLO3) Demonstrate a substantive familiarity with specific bodies of political and sociological theory as they apply to contemporary debates and social problems.
4. (CLO4) Demonstrate the ability to engage with complex theories in conversation with intellectual peers (one focus of intellectual life).

Readings

Students are expected to complete readings by the class session indicated on the course schedule. Students should come to class prepared to *discuss* the assigned readings such that class time is not wasted, and we can engage the material together.

Classroom Activities and Discussion

Though not graded per se, this course requires a great deal of classroom discussion and classroom activity. Discussions and classroom activities are designed to help students successfully achieve all learning objectives and to develop students' graded assignments (CLO 4).

Mid-Term and Final Examinations
